Message from the Colonel Commandant

Fellow Gunners,

I am pleased to endorse the 2001 issue of The Canadian Gunner. This annual publication is a fundamental part of our regimental tradition. It records who we are and what we do. As such, it provides an ongoing profile of the Royal Regiment of Canadian Artillery. A review of earlier volumes shows how the Regiment has thrived in good times and survived in leaner times. More importantly, however, it shows how we have changed and adapted to meet new and challenging conditions while retaining our distinguished heritage. I am convinced that this will continue to be the case. The Home Station, the editor and indeed all contributors deserve our thanks for its continued success.

It would be remiss of me not to acknowledge the extraordinary contribution made by my predecessor, Brigadier General Bob Beaudry over the past six years. His unselfish contribution and dedication has left its mark: it will be a hard act to follow.

To Gunners everywhere - regular, reserve, serving or retired - I wish you continued "Good Shooting".

Mot du Colonel Commandant

Confrères artilleurs,

Je suis heureux de m'associer au numéro de 2001 de L'Artilleur canadien. Cette publication annuelle est une partie essentielle de notre tradition régimentaire. Elle documente qui nous sommes et ce que nous faisons. Elle procure donc un profil courant du Régiment royal de l'Artillerie canadienne. Ses numéros antérieurs rapportent la prospérité du régiment au cours des bonnes années et sa survie pendant les mauvaises. Plus important encore, cette publication témoigne de notre évolution et de notre adaptation pour composer avec les nouvelles situations et les nouveaux défis tout en conservant notre remarquable patrimoine. Je suis convaincu qu'elle continuera de le faire avec brio. La maison mère, le rédacteur en chef et tous les collaborateurs méritent d'être remerciés pour cette réussite ininterrompue.

Je m'en voudrais de ne pas reconnaître la contribution extraordinaire de mon prédécesseur, le Brigadier-général Bob Beaudry, au cours des six dernières années. Sa générosité et son enthousiasme en imposent : il sera difficile de faire mieux.

À tous les artilleurs (Force régulière, Réserve, en service ou retraités), je vous souhaite de continuer à "bien viser".

Message from the Director of Artillery

It is with great pleasure that I take this opportunity as director of Artillery to place a brief message in this year's edition of The Canadian Gunner. This publication has been produced with great regularity for nearly half a century and has become a real tradition within The Royal Regiment. I believe it is popular because it is an informal record of our history.

Whenever I look through old issues of The Gunner, I am always struck by one thing: change is constant. The Gunner is a record of our success in adapting to change over the last half of the Twentieth Century. As we face the challenges and opportunities of the Twenty-First, it is good to have our history to reflect upon.

2002 was another busy and successful year for our Regiment. The pages of this edition are filled with successes that reflect the professionalism of The Royal Regiment of Canadian Artillery. As you read this latest "chapter" in our history, I am sure you will agree that it is another year that can be looked upon with pride and satisfaction by all of us.

In keeping with the theme of change, I believe it would be remiss on my part if I were not to personally note one of the most recent changes in this my first message in "The Gunner". Colonel Steve Gillies has ably served as your Director for the past years. Upon taking up the reigns as Director I can personally attest to the good order in which he has passed on The Regiment and I would like to take this opportunity to thank him on your behalf for the excellent stewardship which he has demonstrated during his tenure.

Mot du Directeur de L'Artillerie

C'est avec grand plaisir que je prendre cette occasion comme directeur d'artillerie de faire un bref message dans cette édition d'Artilleur Canadienne. Cette publication a été produite avec la grande régularité pour presque la moitié d'un siècle et est devenue une vraie tradition dans le régiment royal. Je la crois est populaire parce que c'est un registre informel de notre histoire. Toutes les fois que je regarde par de vieux volumes d'Artilleur Canadienne, je suis toujours frappe par une chose: le change est constant. L'Artilleur Canadienne est un registre de notre succès en s'adaptant au changement plus de la dernière moitié du vingtième siècle. Y car nous faisons face les défis et des occasions du 21ieme siècle, il est bon d'avoir notre histoire pour se refléter.

2001 était une autre année occupée et réussie pour notre régiment. Les pages de cette édition sont remplies de succès qui reflètent au professionnalisme du régiment royal de l'artillerie canadienne. Comme vous avez lu cette dernière chapitre dans notre histoire, je suis sur que vous conviendrez que c'est une autre année qui peut être considère avec la fierté et la satisfaction par tous les nous.

En accord avec le thème du changement, je crois que je serais négligent si je ne noter pas un des changements les plus récents dans ça, mon premier message dans le Artilleur. Colonel Steve Gillies a habilement servi comme votre directeur aux dernières années. En prenant les règnes comme directeur je peux personnellement certifier au bon ordre dans lequel il a passe sur le régiment et je voudrais prendre cette occasion de le remercier en votre nom de l'excellente intendance qu'il a démontrée pendant sa tenure.

1ST Regiment Royal Canadian Horse Artillery

2001 was a year of challenge and change for the Regiment. Our ongoing provision of fire support to 1 CMBG continued in a dynamic environment of evolving tasks throughout the year. The year saw an unprecedented high operational tempo for Canada's First Regiment, which clearly will continue into 2002. The Regiment performed admirably on PSO, urban operations, combined arms training and indeed warfighting in Afghanistan. The return of B Battery in March 2001 signaled the conclusion of back-to-back rotations to Bosnia-Herzegovina for three gun batteries. B Battery's successful deployment to Rotation Six under Major Simon Hetherington, should have signaled that the Regiment was able to stand down, however, 2001 had several surprises awaiting all, including 9/11.

The year also marked significant changes in command appointments for Canada's First Regiment. Colonel A.J. Howard passed command of the Regiment to LCol R.K Chamberlain. Maj T.J. Billings passed his command of A Battery over to Maj M.B. Johnstone on 10 July 2001 and Maj S. Kiropoulos handed the command of HQ and Svcs Battery over to Maj J.P.E. Ouellette on 26 June 2001.

The incorporation of the Tactical Command Control Communications System (TCCCS) took up most of the year either directly through new operator courses or through

MBdr Keith Porrit of C Battery deploys his mortar during work up training for Op APOLLO in the hectic month of December prior to the battery being declared operationally ready.

what seemed to many to be the unending flow of vehicles to Edmonton for the installation of the new systems. Coupled with the arrival of the first LAV III vehicles to the Regiment

MBdr John Furber standing beside the newly arrived LAV III.

the acquisition of these two new technologies made for a busy training cycle. There was some initial disruption in the traditional ways of doing business with TCCCS, but this was quickly overcome as operators became accustomed to the new equipment.

The senior battery of the Royal Regiment

continued in its strong tradition of tireless dedication to the Regiment throughout the year. Not only did the members of A Battery assimilate the new vehicle and communications systems, but it also conducted live fire support to several FTXs in preparation for Rotation 11. Exercise MOBILE RAM saw the first brigade controlled live-fire combat team attacks using the LAV III and included A Battery's move to LAV III-mounted FOOs. In addition, the Battery provided the opening detachment for AVCON and a myriad of other preparations.

Sgt Andy Burton of C Battery commands his detachment during one of the many rotations through AVCON made by regimental personnel during 2001.

For B Battery, Operation PALLADIUM was the highlight of the year. The Battery returned from Rotation Seven in April after completing an outstanding tour in Bosnia-Herzegovina. The Battery participated in many joint exercises as a part of the NATO multi-national division. The detachments were exposed to many different rotary wing prime movers, namely the Czech Mi-8 Hip and the newly developed Dutch Cougar helicopters. The experience gained by all members of the Battery while on such op-

Bdr Ian Bailey and Sgt JJ MacPherson going through URBAN BARBARA training before URBAN RAM.

erations will prove beneficial for the Royal Regiment, as well as providing the participants with good memories and ample material for future "war stories". All members of the Battery were nevertheless very happy to get home. They were also pleased to show off what many had cited were the cleanest boots this side of the Atlantic, thanks to the European Foot and Mouth disease scare and the extensive cleansing process prior to departure and upon arrival in Canada.

C Battery stood up as part of the Immediate Reaction Force (Land) [IRF(L)] as that organization's artillery battery. This task would develop into an operational deployment for a BC and two FOO parties, a mortar group, administrative clerks, an LO, a preventative medicine technician, and a CIMIC driver,

Bdr Polly Rogerson and Bdr Reubeca Tupper practicing Unarmed Combat.

all destined for Khandahar, Afghanistan as part of the CF contribution to the war against terrorism on Operation APOLLO. C Battery thus supported 3 PPCLI as both the IRF(L) Task Force Artillery Battery and as a mortar battery and eventually on operations in its final configuration.

Bdr Ryan Herbert crossing the Assiniboine River.

Little did any of us realize the impact this would have as a result of the events of 11 September, 2001, but proved the merits of preparing for all tasks. This proved to be an excellent challenge for the battery to re-role from an LG1 battery to an 81mm mortar platoon in considerably short order, just before Christmas. Nevertheless, this was expeditiously accomplished by all members of the battery within less than half a month and was declared operationally ready on 14 December. All members of the Regiment support our comrades and their families of C Battery in their deployment on OP APOLLO and pass on our wishes for a safe and happy return.

With the bar for performance placed quite high as a result of a strong Annual Technical Inspection review and low VOR rate, the soldiers of HQ and Svcs Battery continued with their dedicated support to the Regiment, without which the Batteries would be hard pressed to achieve their successes. The communications and vehicle implementations kept all members busy throughout the year, in addition to providing the regular combat service support. The constant coordination of incoming and outgoing vehicles as well as the acquiring of new equipment, such as the mortars for C Battery, TCCCS, LAV III and CADPAT, meant long hours of dedicated servicing for the Regiment. The Battery also provided support during rotations through AVCON in Roger's Pass, B.C. There were many opportunities for HQ and Svcs Battery to demonstrate its flexibility in providing excellent support for the Regiment throughout 2001.

As 2001 ends, the First Regiment finds some of its members of C Battery overseas supporting OP APOLLO. The G8 Summit is in the forefront of our minds with the support that shall be provided for that operation. We are also further poised to deploy A Battery for a potential deployment

on Operation PAL-LADIUM Roto 11 as part of a LAV III battle group and for the follow-on preparations of B Battery to support Roto 12.

As the old adage goes, "a picture says a thousand words." The collection of photos throughout will speak volumes to the type of year that 1 RCHA enjoyed in 2001. The pace of training and opera-

tions was as challenging for Canada's First Regiment as it was for the rest of the Gunners in the Royal Regiment and for the Army as a whole. Whether patrolling the countryside of Bosnia; providing firepower to the manoeuvre units of 1 CMBG; controlling avalanches in British Columbia; participating in sports competitions; or most recently and notably, fighting the war on terrorism in Afghanistan, the Gunners of 1 RCHA have once again lived up to the Royal Regiment's motto: UBIQUE - QUO FAS ET GLORIA DUCUNT.

2nd Regiment Royal Canadian Horse Artillery

The guns of Petawawa spent the year 2001 performing a host of activities including conducting peace support operations in the Balkans, exercising throughout North America, and running a wide range of Regimental

Offensive Support Group Bosnia May 01.

Schools. Ubique is not only our motto, it is our way of life. The main focus of the year was mounting, training, supporting, and reconstituting F Battery for Operation PALLADIUM Rotation 8; a rotation that was far from routine. The deployment of the Offensive Support Group in May, following a period of increased destabilization, coupled with the September 11th terrorist attacks made for a challenging tour. The three Batteries remaining in Canada conducted a broad array of exercises from the seemingly routine, to some of the most demanding challenges seen in the Canadian Artillery world for years. Soldier skills were refreshed in a dismounted patrolling exercise, and a series of Artillery Battle Task exercises saw increasingly intensive deployments and fire planning. Despite the Regiment's wide range of exercises and operations, individual skills within the unit improved immensely as a result of the execution of a significant number of courses for both members of the Regiment and for all Artillery personnel in Land Forces Central Area (LFCA). The 2nd Regiment has made this past year a hallmark in Artillery excellence.

As F Battery had completed its warfighting training in December 2000, its training focus in early 2001, prior to its deployment to Bosnia, was on Operations Other Than War. This deployment was different from previous Bosnia Rotations for the 2nd Regiment, as it was the first time that a 2nd Regiment Battery was deployed in an Artillery role. Nonetheless, the Battery still had to become proficient with

infantry-style framework operations, which was its secondary role. To this end, the Battery deployed to Trenton, Belleville, and Picton in February for Exercise STORMING BEAR. This Exercise brought the en-

tire Rotation Battle Group together to confirm operating procedures and to build cohesion amongst the different units that were Balkans-bound. The Battery Advanced Party commenced its deployment overseas by the third week in March. Initially, F Troop and Headquarters deployed to Tomaslavgrad, and G Troop garrisoned in the Glamoc. By April, the entire Battery was geographically united, and it remained as such for the rest of the Rotation. In May, political and military instability provoked the adoption of progressively aggressive posturing by the Stabilization Force (SFOR), which ultimately necessitated

E Bty - Open Action.

COs Challenge '01.

the deployment of the Offensive Support Group (OSG). The OSG was a multinational organization that included artillery, air, infantry, armour, and aviation assets. It was commanded by the Commanding Officer of the 2nd Regiment, Lieutenant Colonel John Crosman, aided by his Regimental Headquarters. The Regimental Second-in-Command, Major Rich Voss, who had deployed as the G3 Artillery Plans at Headquarters Multi-National Division (South West) in April 2001, provided the co-ordination and planning at Divisional Headquarters. This was the first time that the OSG deployed operationally. It provided an excellent opportunity for the Commanding Officer to meld the firepower of a Canadian light battery, a British AS 90 battery (C Battery 3rd Regiment Royal Horse Artillery), three mortar platoons from three different countries, American reconnaissance and attack helicopter squadrons, and American close air support together into a powerful instrument of NATO resolve. A series of deployments to vital positions as a visible show of strength added to SFOR confidence, and acted as a deterrent to hostile and potentially hostile parties in the region. After 30 days of heightened operations, the instability in the region subsided significantly and operations in Area South West were able to return to normal. After the September 11th Terrorist attacks, F Battery again adopted a heightened state of security to prevent any incidents or casualties from terrorists activities. It was in these conditions that F Battery conducted its handover with R Battery of 5ieme Regiment, Artillerie Legere Canadienne from Valcartier. The tour was marked by uncertain and dangerous situations. The instability within the Balkans and the Terrorist attacks combined to make it a challenging tour for our Regiment, which had not deployed operationally with guns since the Korean War.

While F Battery was on operations in the Balkans, D, E, and Headquarters and Services Batteries maintained a high pace of activities in North America. Training started in January with the commencement of both

Driver Light Track and Heavy Track Courses. February saw a Regimental winter warfare exercise, and March brought the commencement of a Basic Artillery Technician Course, which had Artillery personnel from all across Land Force Central Area come to Petawawa to receive instruction on the technical aspects of Artillery deployment and fire. Another hallmark of the Course was instruction on the Indirect Fire Command and Control System (IFCCS), which replaced the old Ballistic Fire Control System (BFCS). The spring thaw brought the new Gunners of QL3 Course 0101 from Meaford to receive their final Artillery training in Petawawa under the tutelage and support of 2 RCHA. Exercise WATCH-ON-THE-RHINE saw three detachments from the Regiment run the new Gunners through their paces in early spring conditions with light guns.

Along with the Regiment's training and operational commitments, 2 RCHA regards sports as a valuable way to maintain physical fitness, teamwork, and troop morale. Amongst numerous sports, hockey plays a special role for the members of 2 RCHA. On this vein, 2 RCHA shares a unique tie with Queens University, the Royal Military College of Canada (RMC), and the City of Kingston. Throughout the 19th century, RCHA soldiers garrisoned in Kingston played shinny hockey on the Kingston harbour in front of City Hall. In 1886, the students of Queens University and RMC started playing an organized game. These two events represent the roots of the Kingston game. To commemorate these historic events, the Kingston Cup Historic Hockey Tournament was created in 1969. The interesting twist to this round-robin tournament is that the games are played with the original rules, short sticks, and a square, yes, square, puck. This year's games were held on Saturday, 10 February 2001. The 2 RCHA team was on fire as the Gunners played RMC in the first game of the tournament and earned a decisive 5 to 1 victory. Immediately after this first win, 2 RCHA played Queens University. Despite having just played one game, the Gunners came out flying and pulled off a 2 to 1 victory, decisively winning the Tournament.

Historic Hockey - Kingston Feb 01.

D Bty in the Jungle Lanes.

2 RCHA's abilities in other sports were demonstrated during the Regimental Sports Day, conducted on 7 May. Soccer, beach volleyball, softball, tug-of-war, and a five-kilometre harrier were the events used to measure the athletic skill of the Batteries. From May 26 through June 1st, the soldiers of E Battery travelled to the Yukon for adventure training. The expedition was led by BSM Lizotte and focused on cross-country navigation in mountainous terrain. On a similar note, D Battery conducted a Mountain Operations Course during the months of May and June. The weather cooperated as the Course members conducted obstacle crossings, rappelling, and survival skills in difficult terrain. On June 15th, the Regiment put aside its weapons and tools and headed to the sports fields of Dundonald Hall for another inter-Battery sports competition. With the temperature at a balmy 31oC, the day began with a five-kilometre harrier race through the streets and trails of Petawawa. The Troops of D, E, and Headquarters Batteries then went on to participate in ball hockey, soccer, volleyball, softball, and a tug-of-war competition.

June saw a change in the command of three of the four Battery Commanders. Lieutenant Colonel Crosman issued a challenge in the form of Exercise IRON GUN-

NER, which was an orientation and indoctrination into 2 RCHA for the new leadership and senior staff of the Regiment. The two-day event started with a rappel from the rappel tower, continued with a 15 kilometre bike race, an eight kilometre run along the beaches and shore of the Ottawa River, and a 500 metre swim across Chalk Bay. Two helicopters then took the participants on a survey of the training area and surrounding environs and dropped them off on a hilltop to conduct an open action with an LG1 howitzer. The day continued with mountain climbing and cliff rappelling and eventually saw the team board canoes to make the long journey to a lodge on the Ottawa River. Here, the Commanding Officer conducted a series of briefings on the Regiment and detailed his plan for the upcoming Fall Campaign. The two-day affair ended with a gruelling cross-country bicycle ride back to Camp and a mixed social on the patio of Jubilee Lodge.

The new members of the Regiment arrived just on time to witness the completion of the Regiment's infrastructure renovation project.

Several of the Regiment's key buildings were re-opened during the summer months. The Regimental Headquarters building re-opened after a \$1.5 million renovation that improved the office space and facilities. The Gun Park also saw new Troop Commanders' and Troop Sergeant Majors' offices, two new classrooms, and a new resource centre. In the upcoming year, a new building (Z-108) will be finished for the

The M109 Crush in Support of the United Way.

Batteries' Quartermaster Stores and for Headquarter Battery's Troops.

Another highlight of the summer months was the E Battery run Reserve QL3 Course. The lessons learned on the QL3 Course earlier in the year were put to good use as E Battery became the training cadre for the Summer Reserve QL3 Training in July and August. The five weeks of training culminated at the Land Force Central Area Reserve Artillery Concentration in Meaford. The high temperatures in the later part of the summer in Central Ontario

increased the fire index such that live fire was out of the question in Petawawa. With less than a week until the final Concentration, the training was shifted to Meaford in an attempt to take advantage of the lower fire index. Soldiers from 2 RCHA, 7 Toronto Regiment, 11th Field Regiment, 30th Field Regiment, 33rd Field Regiment, and 56th Field Regiment trained side by side for six days of fire and movement on the Meaford plateau.

On August 16th, the Commanding Officer challenged the soldiering skills and physical stamina of members of the 2nd Regiment. Four-man teams composed of all ranks were formed. Minimal information was provided, leading up to the day of the event. The day commenced with a parade on the Simonds Parade Square. The teams were then loaded onto helicopters from 427 Tactical Helicopter Squadron and were taken on a short tactical flight through the training area. The 15 minute flight ended with a jump into a lake and a 500 metre swim in fighting order. Over the next five hours, the teams had to complete a series of small party tasks. Some of the tasks included the negotiation of a maze, the application of First Aid to a vehicle accident casualty, and the filling of a 40 gallon drum that was suspended in a tree. In addition, the teams were required to get across Chalk Bay in a two man boat, clear a lane with paint-ball guns, and build a raft to transport the team across Sturgeon Lake. At this point, the teams navigated through a swamp, canoed across the Ottawa River, and portaged the canoes to the final obstacle course. The Challenge had it's grand finale with a jump from the Mock Tower and a barbecue dinner. All in a summer day's work in 2 RCHA.

With the summer taskings and well-earned summer leave behind them, the Gunners of 2 RCHA switched to training themselves. September saw the Regiment complete deploy to the field to conduct Individual Battle Task Standard (IBTS) training. The first week was spent in a non-tactical bivouac, where troops rotated through various stands that focused on individual soldier skills. These skills included the use of TCCCs radio equipment, field craft, navigation, and mine awareness. Weapons handling of all types was also reviewed. Specifically, handling of the C7 (PWT1), C6, C9, 9mm, 84mm, M72, and grenades was refreshed. The second part of the

2 RCHA Gagetown bound May 01.

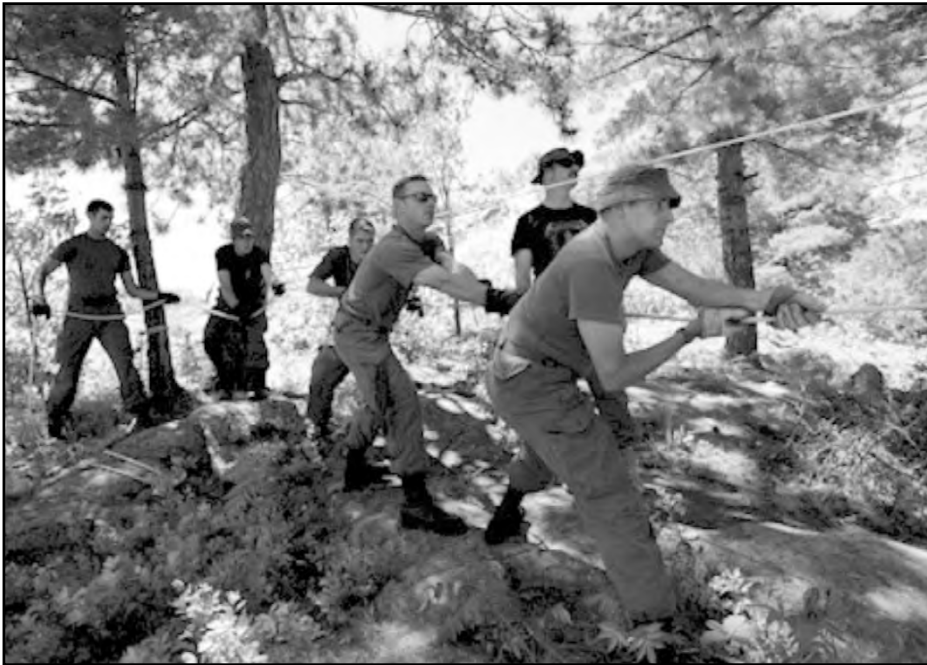

Exercise saw the Batteries deploy to patrol bases and conduct patrolling activities by foot, canoe, and vehicle for a week. Some of the patrols were inserted and extracted by helicopters while others crossed bodies of water in canoes and assault boats. The Troops also conducted section attacks and practised live fire and movement in Jungle Lanes. Once refreshed on its soldiering skills, the Regiment began a second round of Regimental School courses. Light Track, Heavy Track, and Basic Technician Courses were executed. The Basic Technician Course had to be divided into Recce and Command Post portions in order to coincide with the Brigade calendar. The first phase was completed during October and early November, while the second portion will be completed in January and February 2002.

Tuesday, 11 September 2001, was a day that will not soon be forgotten. As the Gunners of 2 RCHA reported to work after morning physical fitness training, the news broadcasts of the World Trade Centre twin towers crumbling to the ground astonished the entire Regiment. That day, the Regiment prepared for the worst. The Major Air Disaster (MAJAD) team deployed to CFB Trenton in order to allow them quick reaction to any demand. The entire Regiment was marshalled that evening, divided into various teams, and placed at various level of readiness. Kit and vehicles were prepared and ready for whatever the coming days would hold. The following day, 2 RCHA

F Bty - Quick Actions.

D Bty Mountain Warfare Training.

deployed the Disaster Assistance Relief Team (DART) Company to Trenton to be prepared to quickly respond to any requests for assistance in New York City. On 14 September, both teams were safely back in Petawawa, ready to carry on with regularly scheduled training.

Training in the form of Professional Development (PD) was on the schedule for the officers and Senior Non-Commissioned Officers of 2 RCHA in early October. The PD trip comprised of a three days trip to Kingston, the birthplace of the Royal Canadian Horse Artillery from the 2nd to the 4th of October 2001. The aim of their trip was to familiarize the leadership of 2 RCHA with RMC and the Army assets in Kingston, while developing team cohesion and esprit-de-corps. The itinerary allowed the members of the Regiment to see a great portion of the facilities at Fort Frontenac, Fort Henry, Land Force Doctrine and Training System Headquarters, the Royal Military College and Canadian Forces Base Kingston. The trip commenced with a guided tour of Fort Henry. The Fort provided a historical perspective of Kingston, the Army, and the employment of heavy guns. It instilled an appreciation of our modern equipment and of our heritage as a military. The next stop was Fort Frontenac for a brief from the Directorate of Army Doctrine and the Directorate of Land Strategic Concepts. Both Directorates provided information about their role in the Army and the future of the Canadian Army. The day concluded with a Dining-Out (mess dinner) at Fort Henry. The second day included briefings from the Land Force Doctrine Training System

Retirement of Sec Mary Richardson after 19 years of loyal service.

Headquarters, the Army Lessons Learned Centre, the Directorate of Army Training, the Peace Support Training Centre, and the Army Simulation Centre. The final day involved a tour of the Royal Military College. The trip provided time for the leaders of the Regiment to become better acquainted and consequently, to facilitate the passage of information that is essential for the officers and Senior Non-Commissioned Officers of 2 RCHA in order to be an effective team leading their Gunners into the future.

On October 23rd, the soldiers and junior officers of the Regiment participated in yet another Commanding Officer's Challenge that was designed to test individual skills on small party taskings. The participants were grouped into teams

of four or five and sent on a rotation of stands and test sites. The skills that were challenged included navigation, First Aid, radio handling, marksmanship and building clearing. The reality factor and excitement was instilled into the building clearing activities with the introduction of paint guns. The weather was rugged as the seasons were changing from the heat of a balmy summer to the cold rains of winter. True grit persisted, however, and all of the teams performed very well. The Fall season also brought the United Way Campaign. Under the guidance of Captain Jeff Lyttle, the Regiment shattered its previous record by 250%. Amongst the many fundraising events, the Regiment hosted a Family Day on the 9th of November. Members of the chain of command offered themselves up as targets on a dunk tank. Teams squared off in a tug-of-war, and people bid to crush a civilian car with an M109. It was a great day that saw Gunners and their families unite for a good cause.

On November 11th, 2 RCHA honoured its fallen comrades in arms. Three contingents were dispatched as salute troops, firing parties and marching contingents. D

Battery sent a Troop to Kingston, E Battery marched in Renfrew and Portage du Four, and F Battery was sent to Couburg. The remainder of the Regiment's personnel participated in the Camp Petawawa ceremony, which was conducted on the Simonds Parade Square.

2 RCHA shifted to gunnery training in the month of November. The training was conducted on a week-by-week

basis with a natural progression of training from the detachment level to troop level to battery level. The detachment level training enabled the detachment commanders to train their soldiers as a team. The final day of this training was devoted to a confirmation

Reliving History with the RCD.

exercise that ultimately determined the Best Detachment. In this Exercise, each Detachment Commander in the Regiment performed direct and indirect shoots. The shoots were evaluated by the Regimental Sergeant Major, the Operations Officer and the Operations Warrant Officer. The winner was 25F, commanded by Sergeant W.D. MacLean. The Exercise included tactical movement, sniping gun missions, open actions, machine gun shoots, and various other drills. The detachment level training gave way to troop level training, which, amongst other activities, included quick actions and open actions. This phase of the training also finished with a confirmation exercise, which determined the Best Gun Troop. The winner was B Troop, commanded by Second Lieutenant S. Bailie and Warrant Officer T.J.C. McGinnis. It was also during this week, on the 21st of November, that field training was suspended for one hour to remember the Canoe River disaster of 1950 that killed 17 members of the Regiment on their way to the Korean War. The final week of the November practice camp, from 26 to 30 November 2001, gave the Batteries time to work as sub-units. Training at the detachment and troop level, along with their confirmation exercises paled in comparison to the frenzy of activity that was reached when all four Batteries launched into this final week-long exercise. E Battery designed a dynamic exercise that saw the Battery move for three days through the rural setting of the Ottawa Valley on both the Ontario and Quebec sides of the Ottawa River. On Wednesday, the 28th of November, E Battery, with 2 CER support, ferried its guns and vehicles across the Ottawa River into the Petawawa Training Area. The water span was approximately 700 metres. Once on the ranges, E Battery joined D Battery in a red bag shoot across the Trans Canada Highway. The Batteries were literally firing from one end of

E Bty - Nov 01 HE Red Bag Charge 8.

the ranges to the other. After this shoot, the Regiment continued with live fire and movement for the remainder of the week.

With the return of the Regiment from the field on the last day of November, the unit took time to focus on Operations other than

Work (OOTW). While the Regiment devoted the following week to repairing vehicles and howitzers, party mode of the Christmas Season swung into high gear. The Regiment held a St Barbara's Day Sports Day on the 4th of December. The junior officers held their annual Subbies Carolling on December 7th, and the Children's Christmas Party and the All Ranks Dinner and Dance took place on the following day. The Regimental Hockey Challenge saw the Senior Non-Commissioned Officers defeat the Officers and the Gunner/Bombardiers defeat the Master Bombardiers. The final festivity was the Junior Non-Commissioned Members' Christmas Dinner, followed by a Regimental stand down for Christmas.

The year 2001 was a diverse and challenging year for the members of the 2nd Regiment. Once again, the Regiment proved that it could accomplish any assigned task. While F Battery's deployment on Operation PALLADIUM Rotation 8 and the Regimental Headquarters' OSG operation in Bosnia proved to be the highlight of 2001, the entire Regiment had a very busy and very successful year. The upcoming year holds many new challenges for the Regiment. Shortly after the New Year, D and E Batteries will be re-equipped with the newly standardized M109 Howitzers. All of the gun Batteries' tactical groups will train for and

receive the LAV III Observation Post Vehicle (OPV) Course. March will see the commencement of a six-month acceptance and reliability trial on the LAV III OPV, and May will see the Regiment in Gagetown in support of the Battery Commanders' Fire Planning Course. Beyond a doubt, the exceptional and versatile Gunners of the 2nd Regiment, Royal Canadian Horse Artillery will capably meet all challenges while fulfilling its primary role of providing 2 CMBG's FIREPOWER.

5^E Régiment D'Artillerie Légère du Canada

LA PREMIÈRE ANNÉE DU NOUVEAU MILLÉNAIRE AU 5 RALC

Le 5e RALC a encore été très actif cette année, particulièrement dans les opérations internationales. En effet, la Batterie R s'est entraînée (d'avril à sept) et s'est déployée (en sept 01) en tant que la batterie d'artillerie légère de la Force opérationnelle de la Bosnie-Herzégovine dans le cadre de l'OP PALLADIUM roto 9. Aussitôt la Batterie R déployée, le personnel de la Batterie Q s'est regroupé afin de débiter le rigoureux entraînement visant à mener à bien l'OP PALLADIUM roto 10. Les membres de la Batterie X n'ont pas été laissés pour compte. La majorité du personnel s'est joint aux Batteries Q et R afin de combler les postes au sein des roto 9 et 10. En effet, la batterie déployée comptait plus de 150 personnes. La lourde tâche de supporter l'entraînement, autant au niveau administratif que logistique, revenait à la Batterie CS qui a su se démarquer par son grand professionnalisme. De plus, les membres de l'état-major du Régiment ont effectué la bascule des responsabilités du commandement et contrôle du groupe d'appui offensif avec le 2 RCHA au début de la roto 9.

Bien que l'entraînement des Batteries Q et R ait fait figure de plat principal au 5e RALC, de nombreuses autres activités sont venues meubler l'année 2001. L'année a débuté avec l'endoctrinement à la guerre hivernale en préparation aux exercices PIEDS GELÉS qui couvrait la survie par temps froid et l'exercice PIÈCES GELÉES qui se voulait le premier déploiement de l'année pour le Régiment avec ses obusiers. L'instruction individuelle fut une autre priorité pour les membres du Régiment. L'utilisation du véhicule Grizzly au niveau des pièces, l'introduction du VBL-III pour les OOA en prévision de la roto 10 et le passage au système de communication IRIS n'ont fait qu'augmenter les besoins en formation qui étaient déjà énormes, dû au déploiement consécutif de deux batteries. En prévision du sommet des Amériques

qui se déroulait au centre ville de Québec, l'OP QUADRILLE fut lancée. Le 5e RALC a eu pour rôle de fournir plus de 100 personnes qui allaient accomplir des tâches de chauffeurs et de répartiteurs afin d'assurer le déplacement des dignitaires qui participaient au sommet. De plus, une sous-unité du Régiment a été sur appel au cas où la situation s'envenimerait lors de cette rencontre. Le sommet n'a duré que 3 jours, mais les personnes assignées aux diverses tâches furent sur un pied d'alerte du 9 au 24 avril 01.

L'équipe de tir régimentaire s'est encore démarquée cette année. Elle a participé à la compétition de tir du 5e GBMC en juin en plus d'envoyer des représentants à la compétition de tir aux armes légères des FC qui se tient annuellement à Connaught près d'Ottawa. Pour ce qui est de la compétition de la 5 GBMC, notre équipe a terminé en 1^{ère} position pour l'équipe à 4 et la coupe du soldat (équipe de 4) et en 3^{ème} position pour l'équipe de pistolet (équipe de 4). Pour la compétition des FC, l'équipe de 4 a remporté la coupe du soldat et la meilleure équipe de 4 (12 match). Il faut mentionner que l'équipe participait dans la catégorie "unité mineure". L'été fut marqué par les différentes tâches que le Régiment a dû combler soit à l'école d'artillerie de Gagetown ou pour la période estivale d'instruction individuelle en venant en aide aux unités de réserve. La Batterie R ayant complété son entraînement artillerie à la fin juin, le Régiment conduisit un exercice de confirmation afin de valider l'entraînement pour la roto 9. Durant une semaine, les connaissances et les compétences des membres de la Batterie R furent mises à rude épreuve par une équipe bien

Tournoi de golf régimentaire édition 2001. L'organisateur du tournoi le bdr Carpentier assisté par le lcol Harvey, cmdt du 5 RALC, lors de la remise des trophées et prix de présences à la fin du tournoi.

rodée qui les plongeait au cœur de situations auxquelles la batterie pourrait faire face lors de son déploiement. L'expérience acquise lors de cette validation allait servir le Régiment, car la Batterie Q a passé à travers ce même processus. À la différence que, cette fois-ci, l'exercice s'est déroulé dans les secteurs d'entraînement de Gagetown au lieu de ceux de Valcartier. L'exercice de validation de la Batterie Q, qui s'est déroulé à la fin novembre, était rigoureux,

intensif et à tout point de vue aussi réaliste que les circonstances et conditions pouvaient le permettre.

Avec le départ de la Batterie R en sept, la phase d'entraînement et d'instruction individuelle s'est poursuivie pour les membres de la Batterie Q qui se regroupèrent afin de débiter la longue marche vers la roto 10. L'année s'est complétée avec le dîner de la troupe et la fête de Sainte-Barbara. Cette année, le Régiment a reçu les membres du 5e RGC afin de célébrer ensemble notre patronne. Il ne faudrait pas non plus passer sous silence d'autres activités qui sont venues compléter l'année 2001 : la randonnée Annie-Marcotte (qui se déroule annuellement en juin), qui se veut une marche pour venir en aide aux personnes atteintes de fibrose kystique; la course Whalen de 5 km à laquelle tous les membres du Régiment ont participé en octobre; et les performances de nos équipes aux compétitions de ski militaire et biathlon du SQFT/FC, qui nous ont encore une fois fait oublier les conditions froides et peu clémentes du mois de février. Notre équipe de 4 a terminé en troisième position du classement général des FC (les épreuves suivantes sont incluses dans le classement (20 km biathlon (2^{ème} position en équipe de 4), 15 km ski (3^{ème} position en équipe de 4), relais 7.5 km biathlon (3^{ème} en équipe de 4).

Comme vous pouvez le constater, l'année 2001 fut remplie d'activité de toutes sortes. L'année 2002 promet d'être aussi haute en émotions. La Batterie R sera de retour au

Le départ de la course Whalen édition 2001. La course Whalen est une course de 5 km qui est courue annuellement par les membres du 5 RALC sur la garnison Valcartier.

pays en avril 02 et la Batterie Q quittera pour la Bosnie-Herzégovine afin de les remplacer. La Batterie R ne disposera que de seulement quelques jours de repos, car elle sera appelée à débiter l'entraînement afin de former la batterie d'artillerie légère dans le cadre de la Force de Réaction Immédiate Terre (FRI (T)) qui doit obtenir sa capacité opérationnelle en juillet 2003. Dans les prochaines lignes, les batteries du 5e RALC exposent brièvement les activités les plus importantes qui ont marqué leur année 2001.

BATTERIE X

La première année du nouveau millénaire a été marquée par deux concepts contradictoires; la permanence et l'évolution.

La permanence a poursuivi son chemin sous l'impression de changement pour l'individu mais d'une continuité pour la Batterie. A un moment ou l'autre de l'année, un peu plus de 85% de ses membres ont renfloué les Batteries Q et R. La Batterie X a effectué son dernier exercice de tir réel avec le M109 du 2 au 4 octobre, avant d'être dissoute temporairement à la mi-octobre pour supporter la roto 10. Malgré tout, la Batterie a remporté la course Whalen en début octobre en obtenant la meilleure moyenne cumulative tous âges confondus. Il faut mentionner que le bdr Leszczynski a donné toute une performance à cette course en obtenant le meilleur temps. Permanence aussi dans le cycle d'entraînement, les niveaux d'entraînements NIAC se sont poursuivis pour être menés à terme en février et mars.

La révolution des affaires militaires a débuté ses effets sur la Batterie X. La Batterie a procédé à la modification de ses véhicules et la formation du personnel afin d'incorporer le système IRIS dans notre inventaire. Nos artilleurs ont aussi obtenu la nouvelle tenue de combat camouflage.

Malgré une continuité qui peut être considérée

comme routinière du point de vue organisationnel, il en a été autrement pour nos membres. Le train de vie soutenu des opérations et des tâches ont modifié, pour le bien et pour le pire, les compétences professionnelles et la qualité de vie des membres de la Batterie et de leurs familles. Cependant, même si la Batterie se trouvait dissociée, son état-major lui continuait son travail et n'a pas chômé. En effet, le CB, le BK et le SMB se sont affairés à la préparation de l'exercice de validation artillerie de la roto 10 durant les mois d'octobre et de novembre. Cet exercice de validation s'est déroulé à Gagetown à la fin novembre. Ce dernier fût d'ailleurs un franc succès, surtout grâce à l'apport important des membres de la Batterie CS comme équipe de figurants et la complicité fluide entre l'état-major régimentaire et les organisateurs de la Batterie X.

En somme, la Batterie X a connu une année très chargée en mouvement de personnel et défis de toutes sortes. La Batterie attend avec impatience sa reconstitution en mai 2002, moment qui marquera le retour de la roto 10.

BATTERIE Q

Au mois de septembre 01, les membres devant former la Batterie Q pour la roto 10, se sont regroupés afin de débiter l'entraînement. La Batterie Q étant une batterie médium basée sur le M-109, ses membres ont donc dû se convertir et s'adapter à l'obusier LG 1 105 mm utilisé en

Bosnie. Ce changement de vocation s'est avéré un défi supplémentaire pour la Batterie. Les équipages d'OOA ont aussi dû se convertir au VBL III. Elles seront les premières à employer ce véhicule comme véhicule d'observation en BiH. De plus, la Batterie Q a dû recevoir plusieurs renforts individuels provenant des autres batteries du Régiment et des régiments d'artillerie du Secteur. En particulier, un détachement a été formé exclusivement de membres des trois régiments de réservistes.

En octobre, nous avons débuté notre entraînement par l'instruction individuelle mandaté par le Centre de Formation de Soutien de la Paix. Cette instruction, surtout théorique, comprenait un nombre impressionnant de sujets allant de séances d'information sur les services offerts aux militaires déployés, jusqu'à la formation sur les armes étrangères et la négociation avec les entités. Nous avons aussi profité de la température du mois d'octobre pour compléter nos TCI de niveau

opérationnel. Ainsi, nous avons conduit de nombreux champs de tir pour les armes personnelles et collectives en plus de compléter la NAPCFT.

Au mois de novembre, nous nous sommes déplacés vers la BFC Gagetown afin de conduire les exercices CORBEAUX AGRESSIFS II et III, destinés à nous permettre d'atteindre les NAC artillerie. Ces exercices étaient surtout axés sur le tir d'artillerie mais plusieurs scénarios ont été incorporés afin de simuler le théâtre des opérations. Nous devions alors mettre en application les techniques de négociation apprises et parfois faire appel aux règles d'engagement. Une équipe du Régiment a été déployée à la fin du mois afin de nous valider et déclarer que nous avions la capacité opérationnelle pour un déploiement outre mer. Avant de retourner à Valcartier, nous avons conclu notre entraînement par un support à des attaques de niveau 6 (réel) et 7 (à sec) par les éléments du GB 2 R22eR.

BATTERIE R

L'objectif ultime de l'année 2001 pour la Batterie R était de se préparer pour son déploiement éventuel sur l'OP PALLADIUM roto 9 en septembre. Tous les efforts des membres de la Batterie furent dirigés vers cette tâche complexe. La Batterie se forma avec un effectif de 150 personnes au début du mois d'avril. La montée en puissance de la roto 9 s'effectua avec succès. Après avoir complété l'entraînement individuel, les membres des différentes troupes ont acquis de nombreuses connaissances et compétence dans une multitude de domaines. Lors de l'entraînement d'artillerie, une emphase particulière fut mise sur la capacité de la Batterie de se déployer sur des routes et dans un environnement hostile miné. Le spectre des tâches possibles pour la Batterie en théâtre étant très large, l'entraînement aux opérations autres que la guerre meublait une grande portion de l'entraînement. Les premiers artilleurs de la Batterie R

Le 1 oct 01, le maj Barbier, CB R (5 RALC), prenait le commandement de la bie légère de la FOBH du maj Young, CB F (2 RCHA), pour la durée de la roto 9.

Un LG-1 de la Bie R est transporté par un hélicoptère Cougar du détachement d'hélicoptère Hollandais dans le cadre de l'EX BALKAN GUNNER IV.

quittèrent Québec en direction de la Bosnie-Herzégovine à la mi-septembre, fins prêts pour prendre la relève de la Batterie F du 2 RCHA.

Les membres des troupes de tir de la Batterie avaient la responsabilité du camp Glamoc, tandis que la Troupe CS s'occupait de les appuyer à partir du camp Normandy de Tomislavgrad. Les OOA étaient situés respectivement à Dvvar G31 capt Richard, à TSG G32 capt Sevigny et à Velika Kladusa G33 capt Auger. Pour sa part le CCFA était situé à Zgon (adj Harvey). Lors de l'arrivée de la Batterie en théâtre, l'emphase fut mise sur l'entraînement aux opérations héliportées avec l'hélicoptère Cougar (du contingent hollandais) afin d'obtenir le plus rapidement possible notre capacité opérationnelle pour ce type d'appareil. Du côté des patrouilles, l'objectif premier était d'optimiser la connaissance de notre secteur de responsabilité ainsi que des gens qui

l'habitent. Le secteur de responsabilité fut séparé en 2 parties, soit le secteur urbain sous la responsabilité du Lt Eyestone et le secteur rural sous la responsabilité de la Troupe F, menée par le capt Gagnon. Grâce à de nombreuses patrouilles, les troupes ont vite acquis une connaissance poussée de leurs secteurs, de la population et de ses besoins spécifiques. Cette maîtrise de notre secteur de responsabilité, nous a permis de

distribuer une quantité impressionnante d'aide humanitaire avant le début de la rigoureuse période hivernale.

Pour les membres de la Batterie R, l'année 2001 s'est terminée avec les célébrations appréciées mais modestes de Noël et du Jour de l'An dans les divers camps canadiens de la SFOR en Bosnie-Herzégovine.

(Gauche) Aide humanitaire. Le bdr Morin et les membres de son détachement (35A) distribuent un poêle à une famille dans le besoin dans le cadre d'une patrouille dans le secteur de Glamoc.

(En haut) Le bdr Chevalier et son détachement (35 C) distribuent de l'équipement sportif (soccer) pour l'école élémentaire de Glamoc. Le directeur de l'école, le professeur d'éducation physique et les étudiants de l'école étaient présents lors de cette remise.

(Gauche) Un détachement en action lors d'un exercice de tir réel dans les secteurs d'entraînement du Resolute Barbara Range à Glamoc.

BATTERIE CS

La Batterie CS fut impliquée afin de supporter l'entraînement du Régiment et plus particulièrement l'entraînement pré-déploiement de la Batterie R et de la Batterie Q. Le rôle de la Batterie CS passe souvent inaperçu. Par contre, ses membres savent qu'ils ont fait partie du succès de l'entraînement des roto 9 et 10 de l'OP PALLADIUM. Malgré l'intensité de l'entraînement au régiment, les membres du 5e RALC ont quand même pu participer à des activités sociales lors de la période estivale. La démonstration d'Expo-Québec et le tournoi de golf régimentaire en sont deux exemples.

Comme à tous les mois d'août, la Batterie CS était heureuse de participer à Expo-Québec. C'est une chance unique de nous faire connaître de la population locale. Bravant le soleil ardent qui plombait sur la ville de Québec, les

Groupe de support offensif (GSO). Voici les membres du GSO lors de leur déploiement en Bosnie-Herzégovine dans le cadre de l'EX BALKAN GUNNER IV.

membres du Régiment ont fait partie d'une démonstration statique aux côtés des autres unités du 5e GBMC et du personnel du centre de recrutement local. Un obusier LG-1, une cuisine de campagne et la participation des signaleurs et des artilleurs du 5e RALC, ont permis de faire de cette activité un succès. Le coup d'envoi, fait au son d'un canon du 5e RALC, est un témoignage que l'artillerie occupe toujours une place de choix dans la ville de Québec.

Coup d'envoi de l'ouverture de l'Expo-Québec le 18 août 01. La salve à blanc fut effectuée avec un obusier LG-1 par le bdrç Digénova et son détachement.

Au 5e RALC, nous avons une gamme variée de sportifs. Nous avons nos Mario Lemieux, mais il ne faut surtout pas oublier nos Tiger Woods. Le tournoi de golf de la Batterie CS permet aux fanatiques de ce sport de se mettre en évidence en déployant leurs efforts afin d'en mettre plein la vue à leurs pairs. Le terrain de Golf du Club Castor, situé à même l'USS Valcartier, est l'endroit de prédilection pour ce tournoi qui s'ancre peu à peu dans les traditions du Régiment.

En terminant, l'implication des membres de l'état-major du Régiment ne peut pas être passée sous silence. En effet, en octobre 2001, le 5e RALC a pris fièrement la relève du 2 RCHA en formant l'élément de commandement du Groupe d'Appui Offensif (OSG) sous le commandement du

lcol Harvey. En décembre 2001, l'OSG fut déployé en théâtre opérationnel afin de participer à un exercice multinational connu sous le nom de BALKAN GUNNER 4. Outre la Batterie R du 5e RALC, une batterie britannique, équipée de AS-90, un peloton de mortier britannique ainsi que les hélicoptères Cougar du contingent hollandais ont participé à cet exercice à saveur multinationale. Ce dernier s'est déroulé dans les secteurs d'entraînement du Resolute Barbara Range à Glamoc.

4th Air Defence Regiment Royal Canadian Artillery

Once again it's time to look back at our calendar and accomplishments for the year gone by, share our Regimental family stories, and commit them to the Artillery Archives for posterity. It was another busy year in 4 Air Defence Regiment. Over and above the normal chatter and clatter of Regimental life, the events of September 11, when evil descended upon us from the sky, the upper, middle and lower echelons of 4 AD Regt went into an immediate operational stance. Staff checks, plans, and contingency plans were drafted and prepared for a multitude of possible AD tasks.

ADATS Firing over Jimmy Lake

While the Head shed and Staffers were planning, the wheels had to continue turning. So while always aware of the possibility of deployment, the Regiment carried on with Regimental School, OP PALLADIUM Roto 9 preparation and deployment, BLAZING ARCHER and PERFECT KILL Live fire Exercises, EX MAPLE FLAG, the Swiss Gun Competition, and several Small Unit Exchanges (SUE) with Air Defence Units of other nations.

Regimental School was a year round event last year, with a few breaks here and there for Exercises and post Ex maintenance. It started in February with the first of two ADATS Gunner Crses. During the spring, April - June, we ran a much needed Driver Wheel Crse to qualify some young soldiers on the HLWW to round them out and complete their qualification as an ADATS det member. Considering that some

4AD Regt SUE visit to UK Sept 01

of the students were very young and very new drivers, and that the trucks are very big, with the exception of a few white knuckles and fresh grey hairs on the instructors, the crse went very well. We also ran a Comms Crse on the TCCCS, which saw a few old dogs not wanting to jump through the new radio hoops. Frustration and fear of the new radios were eventually conquered and all the old and new dogs learned a new trick or two by the end of the crse.

Since the Regt does not do anything slow paced or close to home, fresh off of their ADATS Gnr Crse, the newly qualified ADATS Gnrs married up with the main body on the fly for the move out west to Cold Lake Alberta and exercise PERFECT KILL 01 in March. This was a nice and welcome change of scenery to the wide, barren and extremely open spaces of Suffield Alberta, where we usually go to fire the ADATS. So, just to keep the troops on their toes, a little twist was added. We flew west to Cold Lake Alberta, we then drove back east across the boarder into Saskatchewan to fire out over the Jimmy Lake Range.

The Exercise went very well once we were on the ground and in the right province though. The weather cooperated for the most part and we pounded twenty-six msIs down range and hit the trail for home. We were not the only guests to be hosted by 4 AD Regt Det Cold Lake. Under the auspices of, "The Technical Cooperation Program", they hosted 40 British Rapier soldiers from 22 Regt 53 Bty Sept -

Oct. After the formality of intro training on the ADATS, Skyguard and 35mm Guns they had to show their guests a little bit of the Alberta Countryside for a week or so. Their hospitality, although convenient for them, was reciprocated by 22 Regt RA and while its' pers were in Cold Lake, some 4 AD Regt pers had the opportunity to go to the UK on a similar venture, which was defiantly an adventure for all.

June to Aug we supported two GDF005 35mm Gunner Crses through the AATC and during the fall session of Regimental School, Sept - Nov, we ran a Driver Lt Track, and an ADATS Gunner Crse. With these crses running there were few people available in the Regt when the crisis of Sept 11 was thrust upon us. But as always, we pushed on to the finish line, crossed it on the run and straight into EX BLAZING ARCHER, which was a live fire exercise for the Skyguard Fire Control Radar and the GDF005 35mm Guns.

July saw some changes in the Chain Of Command as well, with LCol M. Lavoie assuming command of the Regt from LCol C Kilford 18 Aug 01. The Regt bid farewell to LCol Kilford and gave a big welcome to LCol Lavoie in traditional Artillery manner, with a parade and a small ceremony to commemorate the occasion. There was also some movement within the Sub Unit COC as 128 Bty Comd was passed from Maj Richard Lavoie to Maj Kent Sutherland. The OC of 210 Wksp changed from a Capt to a Maj position and with that, Capt Escobar was promoted to Major, (Congrats), and remained in Comd of the Wksp. There was movement in the Wksp though with the passing of the ET's Drill Cane from MWO M Ouellet to MWO PG Lawrence.

While Regimental school was churning out some newly trained and qualified soldiers last year, some of our veterans were off to Switzerland representing the Regiment as the defending champions in the Swiss 35mm gun competition. We sent two Dets to compete in the competition and it was Sgt Blackbird and MBdr Martin that got the nod. After a short period of training to bring the newly formed Dets to-

35mm Gun Firing during EX BLAZING ARCHER

gether, they were off. However, due to excess baggage restriction on the aircraft, they could not squeeze their own Gun on the plane, and had to borrow a Gun from the Swiss when they got there. That just made it sweeter when they walked away with Top Gun Det again. MBdr Martin's Det finished in first place, and Sgt Blackbird in third. Congrats to all on a tough job extremely well done.

The Regt broke new ground in 01 with the re-rolling of a Troop of AD Soldiers into an Infantry role, and deploying them on an operational task with the Btl Gp on OP PALLADIUM ROTO 9. After months of training with the Btl Gp, in Oct, under Capt Dawson and MWO Degready, 34 soldiers of 4 AD Regt deployed to Bosnia as an Infantry Platoon. They represented both 4 AD Regt and the Royal Regiment well in theatre.

Again this year, as in the past, we rounded out the year with our annual Regimental RV and St Barbara's Day festivities. Through the fog of suspicious rules and scoring practice, 128 Bty managed to squeak out on top of the heap again. Not that it is an issue, because we are all one big happy family, but on behalf of the rest of the Regt, keep your head up next year. The sports field aside, there were a few individual performances at the mess dinners, which although quite note worthy, but better told in the mess. Sufficient to say that both dinners were a huge success.

Highlighted by an OP PALLADIUM Deployment, two live fire camps, small unit exchanges, a year long Regimental School, and a multitude LFAA taskings conducted in the shadow of Sept 11. It has been an excellent year in the Royal Regiment. It's our hope for more of the same in the future, as we look forward to the challenges ahead, and the experiences that they will bring to the 4th Air Defence Regiment and its soldiers. -- **UBIQUE**

LCol Kilford visits the Tps During Regimental School.

The Royal Canadian Artillery School

The year 2001 at the Artillery School was busy as usual, but it was also marked by a number of exciting events and new challenges. Numerous exercises, ceremonies, and social events were held throughout the year. Training carried on with a Field Assistant Instructor-in-Gunnery (Fd AIG) course being completed, and the beginning of both a Field Instructor-in-Gunnery (Fd IG) and Air Defence Instructor-in-Gunnery (AD IG) courses. The School held the RCA Artillery Tactics symposium, which was filled with lively discussion. Like the rest of the world, the Artillery School was shocked by the events of September 11; here W Battery was called out to man the Base Auxiliary Security Force in case it was needed. All the personnel have carried on with their respected duties and will continue to do so in order to provide the highest quality training possible for the Royal Regiment.

HEADQUARTERS BATTERY

This past year Headquarters Battery of the Artillery School continued to provide outstanding support to the Royal Regiment of Canadian Artillery. Headquarters Battery maintained its mission of providing the Standards, Administrative, Information and Simulation support, Operations and Training to the School and outside agencies.

Headquarters Battery personnel completed the annual Land Force Command Personal Fitness Standard and participated in Operation Green Soldier, the annual range clean-up exercise on base. Additionally, Air Defence Standards Troop organized a very successful Armed Forces day that was held in Fredericton NB, while Maintenance Standards Troop organized a very entertaining Battery Christmas Party.

Information, Technology and Simulation Troop was responsible for the further development and

The School formed up and prepared for inspection during the Freedom of the Town Parade in Oromocto. Foreground D/Cmdt Maj Tremblay, TC Sp Lt Gillan.

support of the School's Web Page and the continued operation of the two IFTs, the RT and TIRT. They also provided personnel to support the MAIS Trial of the new LAV III as well as provide instructors for the first LAV Crew Commander's Course conducted at the Artillery School. They also continued to support public and non-public fund accounting.

Personnel newly posted to Standards attended the TDC 8 & 12 courses (Course Design and Evaluation respectively) and the Documentum Course to prepare them for their

new duties within the Battery. Field, Air Defence and Maintenance Standards Troops continued to amend and revise TPs as well as input them into Documentum. Field and Air Defence Standards contributed to the implementation of the Army's new Developmental Period model for training and career progression by participating in numerous Army and MOC QS and TP writing boards. Of particular note was the creation of the LAV OPV Crew Commander's Course TP, which will see the Artillery being responsible for

"Did Tiger Woods really shave his head???" Sgt Bremner showing how it's done at the golf day.

Maj Keffer fires his last round, 30 July 2001.

training its personnel with its own course.

Overall it was a very busy but rewarding year for Headquarters Battery. The summer months were full of activity due to phase training and the large turnover of personnel during the APS. With the Artillery School designated as the Centre of Excellence for all artillery courses, Headquarters Battery continues with its responsibility of maintaining the standard for artillery courses and Air Defence Primary Mission Equipment courses.

GUNNERY TRAINING BATTERY

2001 was an eventful year for Gunnery Training Battery. There was a major rotation in the Battery Hierarchy. The school took part in Canada's largest ADATS live fire exercise, Perfect Kill, in Cold Lake, AB. A large number of courses were completed and two IG courses were simultaneously started. The Grizzly VSHORAD were successfully completed in February that resulted in the decision to begin fielding the Grizzly VSHORADs in 2003. Two Battery members returned from UN duty and one member departed for UN Duty; Capt Bobbit returned from Bosnia and Capt O'Leary returned from Africa. Capt Beauchamp departed the School in May 2001 for UN duty in the Golan Heights. The changes to the Battery Hierarchy is as follows:

- a. Major Young assumed the post of the CIG,
- b. MWO Angus assumed the post of the TSM,
- c. Capt Baker left Artillery School Standards to become SI AD, and
- d. MWO Levesque assumed the post of SMIG AD.

The summer was highlighted by the BAO/RESO training period, traditionally the Schools busiest period of the year.

This year was no exception with the influx of a number of candidates from throughout Canada. A total of 8 students for AD, and 28 Field Artillery officers graduated. The end of the BAO/RESO training period saw the School personnel depart for a much deserved block leave in August.

In August 2001, the School started two IG courses. Six students are currently attending the Field IG Course and two students are attending the Air Defence IG course. Both courses are scheduled to be completed by May 2002.

Capt Wade McHattie has had a very busy year learning all that there is to know about the LAV OPV. He has participated in the MAIS Trial, the RAMD Trial in Petawawa and various courses and working groups throughout North America. TTPs will be developed shortly and the first Course to use the OPV will likely be conducted in the fall of 2003.

The Master Gunner course began in August 2000, under Gunnery Training Battery and shifted under control of the newly formed Doctrine and Tactics Battery in January 2001. Capt Embree was the course officer. The course was completed in July 2001, with nine graduates. One of the graduates, MWO Gingras is currently now serving as the school's Master Gunner.

MAINTENANCE TRAINING BATTERY

Maintenance Training Battery of the Royal Canadian Artillery School completed another training calendar. During the past year a total of 9 courses have been conducted in both Low Level Air Defence and Land Based Radar Equipment having graduated a total of 35 students. They have all returned to their units with the knowledge and skills gained at the battery to confidently maintain and repair these highly sophisticated pieces of equipment.

MWO Wonta receives his last round from WO Roesler.

Aside from mandated courses and training, the Battery has taken an active role in providing instruction to other courses being run within the school. Both Weapons and Vehicle Instructors have assisted by providing Basic Operator Maintenance training on both the Arty Phase Four Course and the HLWW Drivers Course. FCS has provided basic laser safety to school personnel. In October all members of the battery successfully completed the LFCPFT

providing Basic Operator Maintenance training on both the Arty Phase Four Course and the HLWW Drivers Course. FCS has provided basic laser safety to school personnel. In October all members of the battery successfully completed the LFCPFT

The Battery adventure training took place in Fundy National Park, NB. The training consisted of instruction in repelling and sea kayaking, with outdoor activities such as hiking and mountain biking over the challenging trails offered by the park.

There was a large turnover of battery personnel that occurred during this APS. Posted out were: MWO Flemming to Petawawa, Sgt Timmons and Sgt Poirier to ASG Gagetown, Sgt Desjardines to Winnipeg, Sgt Pippy and Sgt Gallant to 4 AD Regt, Posted into the unit as new instructors were WO Robichaud from the Arty Sch HQ Bty, Sgt Godin from Valcartier, Sgt MacBeth, Sgt Macpherson, Sgt Donovan and Sgt Robichaud all from 4 AD Regt.

WBATTERY

W Battery has the reputation of being one of the busiest units in the Royal Regiment of Canadian Artillery and 2001 proved to be no exception. The year proved to be as challenging and diverse as any previous with the receipt of new equipment and international events shaping the training environment in which W Battery operates. Not only was the battery inundated with the regular taskings and postings filling the schedule, it also had to deal, along with the rest of the world, with the horrific events of September 11th and the global impact of that tragic event. However, as with all previous years, W Battery proved to be more than effective enough to overcome any obstacle placed in its way. W Battery has shown once again that it is perhaps one of the most exciting units, through sheer volume of courses, field exercises and ammunition expended, in the CF.

As usual, the W Battery schedule was jammed packed from day one; however, it was made even more hectic with the onset of September 11th with the callout to participate in the BASF. The BASF remained on a heightened state of alert until 21 September with some soldiers tasked to Camp Gagetown in support of heightened gate security and identifi-

cation checks. Afterwards, the annual BASF exercise was conducted from 24-28 September, consisting of lectures on VIP security, crowd control, cordon and search of vehicles and personnel, media relations, ROEs and culminated with a very successful confirmation exercise. All this on top of an already busy schedule, which included support of upwards of 30 Field and Air Defence courses. These courses ranged from the typical summer phase training courses to the first ever W Battery run Basic Communicator Course since the addition of TCCCS. Superimposed on all of the aforementioned was the need to conduct individual training including Heavy Track, HLVW, MLVW, Iltis driver courses as well as IFCCS/BFCS training for the 021 soldiers. All of this training was somehow arranged with the many Field and Air Defence courses that were supported by W Battery, such as: TQ3, Javelin Det Comd, AD IG, Phase 2 (two serials), Phase III (three serials), Phase IV (two serials), QL7, Fd TC, Fd AIG and Fd IG courses to name a few.

Of course, "All work and no play make W Bty a dull place to stay!" There was something for everyone this year at W Bty. A very successful Basic Mountain Operations course was conducted in April by the BSM, MWO Rusk, on the rugged terrain in the south of the Gagetown ranges. A cross section of 12 Field and Air Defence soldiers participated therein and successfully passed the rigors of knot tying as well as the challenges of constructing and traversing a rope bridge. Other annual battery tasks were also conducted, including; both Field and Air Defense equipment and personnel support to the Shearwater International Air Show, two gun salutes for the opening of the summer and fall sessions of the New Brunswick Legislature and participating as a part of the Artillery School, in the Freedom of the Town ceremonies in

Oromocto on September 8th. There were many Battery personnel who had the opportunity to participate in one of the Battery Adventure Training activities such as Ex Fast Water (a canoeing adventure), Ex Extreme Skydive (a parachuting adventure) and Ex Sea Trek (a kayaking adventure), where individuals were challenged both mentally and physically, all the while enjoying a little bit of fun. One of the highlights of the year was when seven members of

The Director of Artillery discussing with IGs during his visit to the School in June. l-r Col Gillies, LCol Haeck, Capt MacEachern, Capt Dumas, MWO Angus.

AD troop were invited to participate in two different international events. Switzerland was the site of the 35 mm Gun competition where three members participated alongside Russian, British, American and Swiss teams. In October, four soldiers participated in an exchange exercise with 4 AD Regt, in England. They were hosted by 22 AD Regt and were afforded the opportunity to fire their small arms, work in a Rapier Detachment and do a little sight seeing in London and environs.

Just in case the gunners in the Bty didn't have enough to do with all these activities going on throughout the year, many new technologies were introduced to the battery. New technologies are always challenging and can prove to be difficult to master in the field environment. The receipt and implementation of the LAV III and TCCCS produced their own training challenges for drivers, gunners, crew commanders and all battery signalers. In addition, some soldiers participated in the MAIS LAV trail where W Battery was instrumental in ensuring that the artillery input was correctly applied to the trial conditions. The troop managed to qualify three LAV Crew Commanders in January thereby ensuring new technologies were embraced. Sgt Beswick felt the significant impact of TCCCS radios as Pronto wrestled with training and resource problems related to that implementation.

In summary, W Battery was the place to be in 2001. The sheer volume of ammunition, tasks, and field deployments all contributed to the fine honing of all Artillery disciplines. The Battery is looking forward to the challenges ahead in 2002 with its full compliment of LAV OPVs and M113 LEs fully integrated and will continue to provide the optimum support to corps training needs.

DOCTRINE AND TACTICS BATTERY

2001 was for Doctrine and Tactics Battery (D&T Bty) very challenging and exciting based on the amount of activities and tasks conducted, their nature and their importance for the Royal Regiment. Furthermore, the battery took the initiative to train its personnel with the future end-state to provide the army with the target acquisition expertise capability that will be required for the future. This initiative led the battery to a training program aiming at forming its personnel as Target Acquisition technicians. The Battery's mission is to prepare the Royal Regiment of Canadian Artillery for the future as well as supporting School instructional role. The mission includes the gathering, funneling, co-coordinating and drafting of artillery input into Doctrine and Tactics including comments on the acquisition of artillery equipment. In order to accomplish these tasks, liaison tasks are performed with CFLOs across the world, DLR, DAD and CFTEU in Gagetown. D&T Bty is composed of 18 personnel including 4 officers, 6 Sr NCOs and 8 NCMs.

Even if the Bty strength was approximately 20 persons, the level of activity and diversification of tasks received made it extremely challenging. On top of conducting support to courses, the Bty conducted two staff checks for the Director

of Artillery; one dealing with the distribution of M109 to reservist and the other dealing with the contribution of Arty units to the AMF (L) task. Many tasks were also received from outside units and agencies requesting very specific artillery field's inputs knowing our level of expertise. This put to the test the comprehensive knowledge of the Bty members in the area of Fd, AD and targeting. D&T Bty was throughout the year a solid example of dedication, professionalism and determination aiming at producing the best results possible with limited resources in personnel and equipment.

Tactics troop was committed over the reporting period to provide instruction to the following courses:

- a. Fd ICT Crse. Combat Team level and FOO's level Artillery tactics over a ten day periods. This course involved a mix of tactics lectures, DI, TEWTs, CMX and CAX.
- b. Fd ACT Crse. Battle Group level and BC's level Artillery tactics over an 8 day periods. This course involved a

The Cmdt, LCol Haeck, and Pte Tatchell share the carving duties at the Mens' Christmas Dinner.

mix of tactics lecture, DI, CMX and TEWT.

- c. BAO Ph IV Fd Arty. Introduction to Cbt Team tactics into a BG environment through the use of formal lecture and CMX.

The intent of the 12 days long module on the Fd IG course is to make the IG students understand and become capable of applying knowledge and skills acquired of operations conducted at the BG Level. The Fd IG Crse tactics module focused the students at the BG level. After participating in a series of guided discussion on the various BG operations, the students planned and executed both offensive and defensive operations using the CMX and CAX (JANUS) for PARSEBERG, Germany and culminating with TEWTs in the area of SUSSEX.

Tactics troop was also extremely involved with the preparation of the Arty Staff duties course that will be conducted 14 Jan to 22 Feb 02. The Artillery Staff Duties course has been totally re-designed and the staff has put a lot of efforts throughout the year to ensure that the material used for this course

would be IAW current Canadian doctrine. This year's staff duties course included the conduct of a national level exercise that allowed the units to participate, in conjunction with the Artillery Symposium the weekend 16-17 Feb 02. Tactics troop continued over the last year to provide inputs as requested by DAD to comment on Arty publications and other documents as required.

The Cmdt, LCol Haeck, and Oromocto Mayor Russ Giberson sign the scrolls during the Freedom of the Town parade.

dar. To this end, considerable work has been done under the aegis of DLR in order to assist in procurement efforts for both of these weapon systems.

With a view to developing its soldiers, the troop conducted a successful Artillery Intelligence technician course over the fall and followed this up with a trip to the Army Simulation Center in order to train the soldiers

in MUSE/TCS System. This ability will enable the soldiers to operate a simulated UAV in support of school mandated exercises. Such training will also form the basis for the development of the locator to become a "Target Acquisition Technician" in the future.

Targeting troop continued to support the school by providing personnel and equipment over Exercise Staunch Gladiator and by continuing to develop and instruct on such flagship courses as the Artillery Staff Duties, Advanced Technician and Field IG courses.

Ammo and Equipment Section was extremely busy during this time frame instructing to Fd Arty Ph II, two QL3 serials, 6A and Fd IG Crses on equipment and ammunition. The section participated in many static display's, ranging from the Jamaican Staff college visit, Armed Forces Day to Ex Staunch Gladiator. Special projects included for the year: Calibration sp to units (assisting units with policy and management), IFCCS development, testing and maintaining SME expertise on ammunition and equipment in general. The section also provided field support to courses and Ex Staunch Gladiator.

RCA Artillery Tactics Symposium. The School organized this symposium and invitations were sent to all Artillery units across Canada including agencies such as Directorate Army Training (DAT), Directorate Army Doctrine (DAD) and Directorate Land Requirement (DLR). Director of Artillery (D Arty) was also invited for the symposium. The symposium was conducted 5-6 April 01. The symposium began with D Arty and School Cmdt's opening remarks. The first part of the symposium was dedicated to external agencies and the School to update participants on current activities conducted and future events to come. The second part of the symposium offered an opportunity for units and the school to present pertinent topics serving as background information for the subsequent conduct of working group. 1 RCHA presented its experience in Bosnia as a gun Bty, DLR and the School presented an update on TCCCS and finally 4 AD Regt gave a presentation on interoperability issues and lessons from training with our Allies. The last portion of the symposium aimed at conducting a series of

Targeting Troop continued to fulfill a wide range of duties in support of the battery and the school. The provision of survey expertise remained as the primary responsibility, but the conduct of survey operations has taken on a new face as the Targeting Troop becomes proficient with the new Gun Laying Positioning GPS System (GLPS). Implicit with this new equipment was the need to train us and develop a methodology for such instruction. Survey pairs routinely deployed with all field courses to ensure quality of survey control and assistance where required. Inherent within the troop was the requirement to keep abreast of new positioning technology in concert with MCE and DLR. The troop was front and center in organizing the discussions and working groups on survey issues at the spring Artillery Tactics Seminar. Instruction was also given in the field of artillery intelligence and locating expertise to a number of courses at the school.

The troop strives to be forward looking and to this extent has spearheaded the school effort to develop doctrine and awareness of UAVs and counter mortar ra-

Softball champs from School Sports Day.

Col Saunders fires his last round.

in the planning and conduct of the conference. Artillery School personnel were invited and attended many presentations/briefings conducted by the various guest lectures throughout the conference.

CFB Gagetown United Way campaign for 2001 kicked off on 20 Sep, and will terminate on 30 Nov 01. CI and BSM D&T are the base reps for the United Way Campaign. Due to the success in past campaigns, this year's goal for Camp Gagetown was increased by 10% to \$55,000. The Artillery School goal this year was set at \$4,698.00. With still a week and a half to go the Artillery School has reached 99% (\$4,627.95) of its goal. Camp Gagetown has at this time reached 89% (\$49,369.96). Confidence levels are high with the aim of not only achieving both the Camp Gagetown and Artillery School goals, but also surpassing them.

working groups with the intent to recommend solutions and the development of an action plan. Working groups focused this year on LFC2IS implementation and training, survey concepts and the future use of tactical tasks for the AD. The symposium proved to be once again a very valuable platform for the exchange of ideas and the advancement of the Royal Regiment into the future.

Most of D&T Bty soldiers participated this year on a five-day canoe expedition that took place 22-25 May 01 on the Nipisiguit River, in the area of Bathurst, NB. The exercise was organized in conjunction with HQ Bty. It turns out to be an excellent exercise that was demanding and challenging for all Bty personnel that attended.

This year's Master Gunner conference was conducted 10-14 Oct 01 in Camp Gagetown. The Master Gunner Conference is a forum, by which serving and retired Mr Gnr exchange ideas and information on, ammunition, equipment, and technology which affects the Army as a whole. This year's theme was "Emerging Ammunition Technology". Presentations included SNC Ammunition Trials, Terminal Ballistics and After Armour Effects, as well as, a briefing by CWO (Mr Gnr) Moretti on The Land Forces Technical Warrant Officers Course, soon to be conducted at CFB Kingston. This course has now replaced the existing Master Gunners Course, which was being conducted at the Artillery School at Camp Gagetown. BSM D&T Bty co-ordinated arrangements for all participants and guests, and also to assisted

With the New Year and a chance to reflect on all that happened in 2001, it is clear that it was a success for all those at the Artillery School. A number of diverse courses from all levels were supported throughout the year. Along with all the training provided to students, we honed our own skills through collective, individual and adventure training. We enjoyed working with all who came to train and work with us and look forward to shooting with you in the future. -- **UBIQUE!**

Marching to the Oromocto Town Hall for the Freedom of the Town Parade.

The Royal Canadian Artillery Band

Entering our fifth year in operation based out of CFB Edmonton, The Royal Canadian Artillery Band is gradually gaining a reputation and recognition as a first class professional military band in Edmonton and the surrounding area. The band is comprised of 38 professional musicians who must endure a rigorous competitive audition process in order to secure a position. Within the full concert and parade band, there are several smaller groups who also perform regularly, such as mess dinner bands, the stage band, saxophone quartet and Dixieland band. The primary role of the band is to provide musical support for the Canadian Forces, however, we also provide musical services throughout the Alberta region as well as regular performances at CFB Shilo, the Home Station of the Royal Canadian Artillery.

A year in the RCA Band typically revolves around two seasons - concert band and parade season, with Mess Dinners being performed intermittently. Concert Band season involves repertoire that is performed during school tours which are scheduled for Public Relations and recruiting purposes for the Canadian Forces. For the past three years the band has put on a family-oriented Christmas Concert at the recently built world-class concert hall in Edmonton - the Francis Winspear Centre for Music. This past year, the RCA Band has been included in concerts at City Hall as part of the City Sounds concert series, in addition to concerts with other well-known bands such as *Big Rock Pipes and Drums* and *The University of Alberta Symphonic Wind Ensemble*. Performing with these groups provided an excellent opportunity for exposure as we played for large, receptive audiences.

As well as concerts, this past February we were fortunate enough to record a promotional CD called *Collage*. This project was accomplished with the kind permission of

Col Dave Read, CD, Commander 1 ASG Edmonton.

Parade season finds the band playing at both military functions such as Change of Command parades, Ex STRONG CONTENDER ceremonies and a Canada Day parade as well as civilian street parades like Edmonton Klondike Days, Leduc's Black-Gold Rodeo and Red Deer's Westerner Days Parade.

This year the band was lucky to be involved in several military tattoos over the span of two months where we performed our marching routine and massed band displays.

The Royal Canadian Artillery Band

The most extensive was *Tunes of Glory*, October 2001, organized by Capt Richard VanSlyke from 15th Field Artillery Band (reserve) Vancouver. This tattoo involved three staple regular force bands: The RCA Band, The British Grenadier Guard Band and the 29 Palms United States Marine Corps Band. This tattoo lasted almost two weeks as we toured from Edmonton through Calgary, Kelowna, Vancouver to

Victoria. It proved to be a worthwhile experience for our band, although very exhausting after all of the travelling and performing. Later that month, the band traveled to Red Deer and Winnipeg for two smaller International Tattoos.

The Royal Canadian Artillery Band looks forward to the upcoming engagements and performances throughout 2002, including the International Military Band Festival in Quebec City, The Yukon Sourdough Rendezvous, Lethbridge Tattoo as well as school concerts - both local and rural.

For more information on the Band and upcoming events, visit our web site at:

www.telusplanet.net/public/rcaband

2nd Field Artillery Regiment Royal Canadian Artillery

The 2nd Field Regiment had a challenging year. With a strength of 84 all ranks, the Regiment has successfully completed many tasks, including UN augmentation, training exercises, individual training, as well as IRIS and IFCCS training.

The Regiment divided its' training into individual training during the winter and spring, and collective training during the fall. Training this year started on the weekend of January 27 with some IBT in Farnham. Unfortunately on the same weekend the unit had to also support our Brigades' Janus exercise so many of the senior personnel found themselves on the Janus exercise. The Regiment supported both the Francophone and the Anglophone Janus brigade exercises held on January 26-28 and on February 23-25 respectively. We supplied an FSCC as well as the BC/FOOs and the regimental command post.

In February we continued our IBT training with a weekend in Valcartier with Exercise Nez Gelée. The exercise is not called Nez Gelée for nothing. Despite the cold weather turnout was very good. In the months of March and April we did professional development training, which included leadership, tactics, and training on the light arms simulator.

In May we did our annual C7 shoot in Farnham and concluded the spring training period with a smoker back at the Regiment, wishing the gunners good luck on their summer courses and taskings. On July 1 we did a gun salute in support of the Canada Day festivities in the Old Port of Montreal.

After the summer training period the Regiment began its' collective training phase. But before we could shoot we had to complete the IFCCS conversion course, which was held over two weekends in September.

The Regiment held 2 live fire gun exercises (LFX) in Valcartier during the fall period, Exercise Pressure Start from 26-28

Le 2e Régiment d'artillerie de campagne a eu une année remplie de défis. Avec un effectif de 84 membres, le Régiment a su remplir ses différentes tâches avec succès, soit de fournir du personnel pour les missions des NU, les différents exercices, l'entraînement collectif et individuel, de même que l'apprentissage des nouveaux systèmes IRIS et LOCTI.

L'entraînement fut divisé en deux périodes, soit l'entraînement individuel à l'hiver et au printemps et l'entraînement collectif à l'automne. Cet entraînement commença la fin de semaine du 27 janvier à Farnham. Cependant, l'exercice Janus de la brigade avait lieu cette même fin de semaine, et plusieurs membres seniors de l'unité durent supporter ce Janus. Le Régiment participa aux deux exercices Janus de la brigade, en français les 26-27-28 janvier et en anglais les 23-24-25 février, fournissant ainsi un CCFA, de même que les postes de CB, OOA et OPCR.

L'entraînement se poursuit en février avec l'exercice Nez Gelé à Valcartier. Malgré la température très froide, l'exercice qui porta bien son nom fut un succès ! Le développement professionnel occupa les mois de mars et d'avril, à la fois sur le leadership, les connaissances tactiques, et l'entraînement avec le simulateur d'armes légères.

L'exercice annuel de tir C7 eut lieu en mai à Farnham, et fut suivi par un "smoker" à notre retour au Régiment, ce

qui clôturait la période printanière d'entraînement. Ainsi était arrivé le temps de souhaiter la meilleure des chances à tous nos artilleurs sur leurs cours et leurs tâches estivales.

Le 1er juillet avait lieu un tir de salut avec canons en collaboration avec les cérémonies de la fête du Canada au Vieux-Port de Montréal.

Après la période d'entraînement estivale commença l'entraînement collectif. Avant d'aller en exercice

Gun Salute on Canada Day in the Old Port of Montreal

Le tir de salut pour la fête du Canada au Vieux-Port de Montréal

October and Exercise Yaw Equilibrium from the 23-25 November. These exercises were doubly challenging as the gunners had to adapt to the newly received IFCCS and IRIS systems.

Just prior to each exercise we also held a CPX in Farnham. Exercise Dry Martini was on 13-14 October and Exercise Ginger Ale on 9-10 November. These CPXs gave us a chance to focus on the recce and deployment aspects so when we did the LFXs we could focus more on the actual shooting.

On November 11 we did another gun salute for Remembrance Day. After being awarded the Freedom of the City in 2000, the Regiment in 2001 was finally authorized to return to the top of Mont Royal and fire its guns from the Belvedere. This was an old tradition, which we worked hard at to re-establish. On December 15 we closed up the year with our annual Christmas dinner. The day started with a visit to the Veterans' hospital in Saint-Anne de Bellevue. This is always a humbling experience as we spend time with some veteran gunners. After the visit we returned to the Regiment for a regimental parade and dinner. During the regimental parade the youngest gunner, Gnr Adamczuk, was promoted to acting CO for the day and after a big turkey dinner we retired to the mess.

The Regiment had five NCMs in Bosnia on Roto 9 this year: Bdr Caroline Method, Bdr Marco Blais, Bdr Pascal Breault, Bdr Normand Derbridge, and Gnr Marc-Oliver Cote. At the same time four officers were preparing to deploy also to Bosnia on Roto 10: Capt Alain Pedneault, Lt Yannick Sevigny, Lt John Kramer, and Lt Jean-Pierre Pindi. The experience gained by these individuals is invaluable and their service is an inspiration to all those who are not able to go. The Regiment also received the new artillery simulator, the Albatross. This year our FOO's will also train with their supported arm. Our goal is to use the Albatross not only for FOO/BC training but also to promote inter-arm training within our brigade.

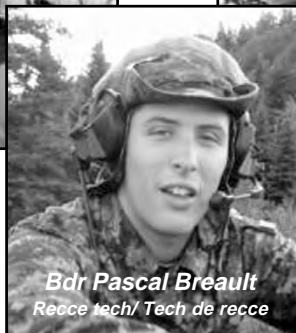

The Regiment experienced another busy year. Despite being stretched by simultaneously having taskings, exercises, and courses the Regiment stayed the course and fulfilled its' busy schedule.

de tir réel, deux fins de semaine de septembre servirent à qualifier le personnel sur les nouveaux ordinateurs de tir LOCTI.

Deux exercices de tir réel étaient au calendrier en automne, soit l'Exercice Pressure Start les 26-27-28 octobre et l'Exercice Yaw Equilibrium les 23-24-25 novembre. Ces exercices mirent nos artilleurs à l'épreuve puisqu'ils devaient s'adapter à la fois aux systèmes LOCTI et IRIS alors nouvellement acquis. Juste avant ces exercices réels, le Régiment fit des exercices de poste de commandement à Farnham, les 13-14 octobre pour l'exercice Dry Martini et les 9-10 novembre pour l'exercice Ginger Ale. Ces exercices "à sec" nous permirent de mettre l'emphase sur les aspects reconnaissance et déploiement, de façon à se concentrer sur le tir lors des exercices réels.

Un autre tir de salut avec canons eut lieu le 11 novembre pour commémorer le Jour du Souvenir. Après le Droit de Cité en 2000, le Régiment se voyait octroyer en 2001 le droit de retourner au sommet du Mont-Royal pour effectuer ce salut à partir du belvédère. Tirer en ce lieu est une vieille tradition régimentaire que nous avons récupérée non sans peine.

L'année d'entraînement se termina le 15 décembre avec le traditionnel Dîner de Noël. En matinée, nous visitâmes les vétérans à l'Hôpital Ste-Anne de Bellevue. À chaque année, cette visite s'avère être une expérience très enrichissante pour nos membres qui peuvent ainsi discuter avec nos vétérans artilleurs. De retour au Régiment, il y eut la parade régimentaire, la dernière de l'année, puis le dîner. C'est l'artilleur Adamczuk, notre plus jeune membre qui fut promu Commandant du jour et qui, après un copieux dîner à la dinde, nous permit de se retirer au mess.

Cinq de nos membres du rang participèrent cette année à la Roto 9 en Bosnie : Bdr Caroline Méthod, Bdr Marco Blais, Bdr Pascal Breault, Bdr Normand Derbridge, et Art Marc-Olivier Côté. Au même moment, quatre de nos officiers se préparaient pour se déployer avec la Roto10 aussi en Bosnie : Capt Alain Pedneault, Lt Yannick Sévigny, Lt John Kramer, et Lt Jean-Pierre Pindi. Il va sans dire que l'expérience acquise par nos membres lors de ces missions est inestimable et demeure une source d'inspiration pour ceux et celles qui n'ont pas la possibilité de participer à de telles missions.

Le Régiment possède désormais le simulateur de tir d'artillerie Albatross, nouvellement acquis cette année. En plus de servir pour l'entraînement de nos OOA/CB, nous voulons utiliser le simulateur pour promouvoir un entraînement inter-armes avec les autres unités de la brigade.

Ce fut donc une autre année bien remplie pour le Régiment. Malgré les tâches, les exercices et les cours qui finissent par arriver tous en même temps, le Régiment et ses membres ont su composer avec tout ça... et on s'en est bien tiré !

3rd Field Artillery Regiment Royal Canadian Artillery

2001 was a busy training year for the Loyal Company. In addition to our regular training and the summer training period, we also provided support to the Royal Canadian Artillery School and to 1-152 US Artillery Regiment. Couple that with a Change of Command parade and our usual slew of ceremonial events, and you end up with an active year indeed.

The year started out cold and quickly got colder. From our yearly winter indoctrination exercise in January, we progressed to Exercise Thunder Trails, a winter shoot which saw the extremes of a New Brunswick winter. Since this was also the final exercise for the unit-conducted OP Tech course, the students had to not only concentrate on getting bullets downrange swiftly and on target, they also had to don and doff clothing so fast it made their heads spin. On Saturday, the weather went from a balmy 10° C to -40° C (with the wind chill) in the span of twelve hours. Before lunch, streams of melted snow were coursing through the gun position. By nightfall, these same streams were solid ice. Although the vehicles were moved through-

#1 A/F...a gun fires during Ex Torrential Valley.

out the day to prevent them freezing into the ground, the same could not be said for the guns, which had been firing all day. By Sunday morning the guns and tents were firmly imbedded into the ice, and only a herculean effort by the battery got them out. May we never see an exercise like that again!

The CP deploys at Airstrip 2.

The Regiment continued to solidify its relationship with a US National Guard artillery battalion, the 1st Bn of 152 US Arty Regt. In the spring we sent a FOO party out to train with them during one of their yearly exercises in CFB Gagetown. It took some time for our FOO party to get used to the concept of General Support. After training at the battery level and adjusting fire with one gun, it was definitely an eye-opener to open up with fifteen 155mm towed howitzers at Fire for Effect! We will continue to train with our US brethren whenever possible.

After two more live fire exercises and an ELOC training weekend, our soldiers were ready for the summer training period. Because of a successful

recruiting year, our first in many years, two serials of QL3 were conducted during ARTS 2001. A total of 19 qualified gunners were ready to integrate themselves into the firing battery by September.

On 30 September, the Regiment said goodbye to one of its longest serving members. After close to thirty years with the Loyal Company, LCol Kirk McGeachy relinquished the reins of power to LCol Joe Foote during a Change of Command parade. LCol McGeachy was transferred to the Advanced Training Cell at LFAA HQ where he will continue to serve the CF, as he served the guns for so many years. Good luck, Kirk!

LCol Foote wasted no time getting settled into his new role, and the Regiment embarked upon another successful recruiting and training year. Two more live fire exercises were conducted before December, including a detachment level exercise which focused on off-neglected drills like Open Actions and Sniping Gun.

As usual, there was no shortage of ceremonial activities to fill in any spare time. 21-gun salutes were fired on Loyalist Day, Victoria Day and Remembrance Day. Minute guns were also deployed during Remembrance Day in Saint John, Woodstock and Hartland. By the end of 2001, the Regiment was already looking forward to a Freedom of the City parade in May 2002.

In retrospect, 2001 was a busy, yet exciting, year for the Loyal Company. We have made great strides to fill our establishment, morale is high and good training is being conducted. With the CO's three-year plan, we are confident that we will continue to be one of the more technically, and tactically, proficient Reserve Artillery units in Canada for years to come.

5th Field Artillery Regiment

Royal Canadian Artillery

The 2001-2002 training year was one of renewal for 5 (BC) Field Regiment. In addition to getting the guns back in service, which were grounded for the entire 2000 - 2001 training year as a result of the trouble with the wheel assemblies, the Regiment also received a new Commanding Officer, Adjutant and Regimental Sergeant Major.

The training year began with a Change of Command parade from LCol P.A. Sherwin, CD Adec, to LCol L. B. Sherrard, CD. This was LCol Sherwin's second tour as CO of the Regiment, and all members of the Regiment want to express their gratitude and admiration for his many years (decades?) of service to the unit. The officers and men of 5 Field look forward to LCol Sherwin's continued association with the Regiment, and wish him every success in his future endeavours.

LCol Sherrard is a career artillery officer who joined the Regiment following several postings overseas as a UN observer in many countries in the Middle East. Hopefully, LCol Sherrard will find 5 Field in Victoria more enjoyable than Syria, Pakistan, Israel, et al, and equally rewarding.

After back-to-back postings as RSSO, Captain Len Seymour, CD left Victoria for Air Defence Artillery training at the school in Gagetown. His replacement, Captain Pierre (Pete) Lajoie, CD arrived during the summer stand-down from 5 RALC. The Regiment is benefiting from his experience with his home unit, as well as his time spent overseas, in places such as Bosnia and Haiti.

CWO W.J. Ingram, CD, retired from the regular force, joined 5 Field and agreed to become the RSM. All members of the regiment appreciate his many years of experience in the artillery.

The highlights of the training year were two live-fire field exercises held at the Yakima training area in Washington State. The four-day exercises (during the long weekends in October and April) we held jointly with 15 Field of Vancouver.

A successful QL2 course was run by 56 Battery in Nanaimo. In addition to our own troops, members of the Canadian Scottish Regiment, and 11 Medical Company attended, and completed the course.

The traditional salutes for the Opening of Parliament and Victoria Day were fired, as well as a salute for the

installation of the new Lieutenant Governor, the Honourable Iona Campagnolo, PC, CM, OBC.

In keeping with its long tradition of supplementing the regular force, and supporting Canada's international peacekeeping efforts, 5 Field Regiment had 7 members awaiting deployment on Roto 11. The subsequent downsizing of this rotation will no doubt affect the number of our gunners that remain on this rotation, but we wish those soldiers well. The experience these soldiers gain is a benefit not only to themselves and their Regiment, but also for the community to which they return. Nothing helps promote the cause of our missions overseas like having a co-worker, colleague or neighbour say "I was there".

5 Field Regiment looks forward to the upcoming training year. The unit is growing in strength, both in Victoria and Nanaimo, which, along with healthy and serviceable guns, should provide for interesting and effective training. -- **UBIQUE**

6^e Régiment D'artillerie de campagne L'artillerie Royale Canadienne

La 103^e année d'existence du régiment fut pleine de rebondissement pour les membres du 6 RAC. Nous avons atteint nos objectifs par les entraînements au sein des batteries de l'unité. Nous avons qualifié le Sgt Bisson, le Sgt Dupont, le Sgt Guilbert et le Sgt Labbé sur le cours de NQ6B. De plus, les SLt Côté et Slt Rainville ont complété leur phase 1 et 2 de leur entraînement d'officiers d'artillerie. Le NQ3 artillerie, ont permis de former 6 nouveaux membres de la grande famille des artilleurs. Nous avons également participé à EXPO Québec 2001, ce qui fut une belle opportunité de vendre l'unité à la population et d'ainsi accroître le recrutement. Ce fût une année exceptionnelle pour le Régiment et chacun des membres de l'unité peuvent en être fier.

En 2001 et début 2002, 34 membres du 6 RAC ont renforcé le 5 RALC avec 9 membres sur la roto IX et 9 membres sur la roto X et le reste en contrat classe B sur l'arrière-garde à Valcartier. Les opérations outre-mer sont de belles chances pour un milicien de vivre la vie d'un régulier dans un autre univers que la garnison. C'est ainsi que le Maj Garon et Maj Masson, Lt Bérubé, Sgt Houde et Sgt Talbot, Bdr Massé, Bdr Morin, Bdr Poirier, Bdr Fournier, Bdr Mercier, Bdr Létourneau, Bdr Bois et les Art Tremblay, Art Nadeau, Art Vézina, Art Picard, Art Héthrington, Art Bois, Art JF Pelletier et Art M Pelletier furent déployés. Huit d'entre eux se sont joints à la Batterie R du 5^e Régiment d'artillerie légère du Canada (5 RALC), et huit autres se sont joints à la bie Q en mars 2002 pour la roto 10. Tout comme la Bie R, ces gens ne vivent pas tous sur le même camp : deux membres sont à

Tomislavgrad (TSG) alors que les six autres sont à Glamoc. À TSG, une cohabitation existe entre les membres de la Bie et ceux de la Compagnie A. Au total, un peu plus de 210 militaires y vivent. Glamoc, considérée comme une maison de peloton, elle est habitée par 86 militaires, principalement de la Bie R. Durant cette rotation, nos artilleurs ont encore une fois, fait preuve d'un très grand professionnalisme, étant reconnues, chacun dans leur poste, pour leur dévouement et la qualité de leur travail. Dans la plus pure tradition du 6^e RAC, nos artilleurs ont su relever les défis qu'ils ont rencontrés et ont laissé une marque positive de la réserve et de l'artillerie dans la mémoire des gens qu'ils ont côtoyé. Un des

Le Nouveau CMTD du 6 RAC, Lcol Brault remet les nouvelles cannes des SMB respectifs, soit l'Adjum Boulay, SMB de la 57^e Bie, L'adj Brown, SMB de la Bie CS. Le tout en compagnie du nouveau SMR, l'Adjum Roland. Beaucoup de nouveautés cette année!

M BATTERIE- GAGETOWN

Cette année nous avons déployé une vingtaine de personne de la batterie opérationnelle du CTC Gagetown (bie M) pour une période de 10 semaines. Cette tâche avait pour but d'appuyer les officiers en formation sur les phases 2, 3 ou 4 de leur formation d'officier d'artillerie. Cette expérience acquise durant cette tâche fut des plus bénéfiques pour améliorer l'expertise du régiment en tant qu'artilleur de campagne.

plus beaux exemples est que nos artilleurs ont définitivement montré à leurs confrères canadiens et étrangers, réguliers et réservistes, la force du 6^e RAC soit : ENSEMBLES.

CONCERT AU CRÉPUSCULE

Un spectacle grandiose organisé par le 6 RAC, auquel 5000 personnes ont assisté le 18 août 2001 au Fort no 1 de Lévis. De concert avec la musique du Royal 22^e Régiment, le 6^e Régiment a déployé 4 canons pour l'ouverture 1812 sous la musique et les feux d'artifices. Les membres de l'unité ont encore une fois démontrée leur professionnalisme et leur ex-

OP PALLADIUM ROTO 9 ET 10

Le public attendait avec impatience le début de l'événement fort en énergie au Parc du Fort #1 de Lévis

pertise dans l'organisation d'événement majeur. L'expérience aura lieu l'an prochain pour que l'événement devienne un spectacle et une tradition pour la rive-sud de Québec.

CHANGEMENT DE COMMANDANT ET DE SMR

Le 14 octobre 2001 est une date historique pour le Régiment. Le Lcol Marc Pelletier, commandant sortant, a remis son régiment au Lcol Normand Brault, ancien commandant du 5 RALC. Le Lcol Brault devient ainsi le 29e commandant du régiment. C'est avec enthousiasme et plein de nouveaux projets pour l'unité qu'il prend son commandement.

Cette cérémonie fût remplie de beaucoup d'émotion pour le sergent-major régimentaire sortant de l'unité, l'adjutant chef Alain Turgeon qui lui a remis sa canne de SMR à l'adjutant-maître Paulin Rolland. Durant la cérémonie, le Lcol Brault intronisait le Lcol Michael Turcotte, à titre de Lcol honoraire du 6e régiment d'artillerie de Campagne.

TIR DIRECT

Pour la première fois de l'histoire du Régiment, du tir direct sur cible mobile a été réalisé dans le cadre de l'exercice Odyssée

Percutante du 23 au 25 novembre 2001. Le détachement du Sgt Coulombe a remporté les honneurs en atteignant la cible à 4 reprises à une distance d'environ 3 km. Tous les détachements ont atteint la cible, ce qui n'a pas été une tâche facile pour les commandants de détachement et leurs équipes de canon. Cette expérience prouve la qualité des détachements de la 57e batterie, la batterie opérationnelle de régiment.

VISITE DES FAMILLES

Une première. En effet, le 25 novembre dernier, 4 autobus remplis par les membres des familles des artilleurs du régiment furent transportés dans les secteurs d'entraînement de la BFC Valcartier pour une visite sur la position des canons de la 57e batterie. Ce fût une chance incroyable pour les familles de voir enfin ce que leurs femmes, maris ou enfants accomplissent lorsqu'ils sont en exercice. Pendant la démonstration, des explications furent

donnés par le commandant du 6e régiment, afin de donner l'heure juste du métier d'artilleur. Tous les types de munitions furent présentés à un public attentif et ont été stupéfaits par la puissance de ces armes. La démonstration consistait en un "CESSEZ LE TIR", suivit d'une mise en batterie rapide pour se terminer par du tir réel. Par la suite, les familles ont pu s'approcher des canons et parler, poser des questions aux membres de leurs familles sur le fonctionnement des obusiers. À cette occasion, le Lt Ancil tira son dernier coup de canon, pour mettre fin à son histoire d'amour avec

l'artillerie et le 6e Régiment. L'expérience fut un succès sur tous les points et l'an prochain, cette activité prendra de l'ampleur, où les familles et les employeurs des artilleurs seront invités pour éclairer les mystères de l'artillerie.

En conclusion, le cycle des rotations 9 et 10 fûrent très difficile pour l'unité. En tout, 34 membres de l'unité étaient absents sur les rotos ou alors en classe B sur la base de Valcartier. Le partenariat de l'artillerie du S.Q.F.T. a permis au 6 RAC de pouvoir compléter adéquatement son entraînement et nous remercions le 5 RALC.

Le détachement du Sgt Coulombe posé fièrement, en compagnie du CMDT de la 57e Bie, le Maj Masson et du SMB, l'Adjum Boulay. Le détachement du Sgt Coulombe comprend les membres suivant : La BdrC Caron, le Bdr Coulombe, le Bdr Clavet, l'Art Bois, l'Art Chabot, l'Art Tessier- Guay, et l'Art Darisse.

Les rendre... Jamais!

20th Field Artillery Regiment Royal Canadian Artillery

While our focus is on the new year ahead, 2001 was a very memorable year. The gunners of 61 Fd Battery and RHQ in Edmonton and 78 Field Battery in Red Deer, combined for exciting and valuable training as well as numerous ceremonial and social events. While the year was a busy one, the Regiment demonstrated the flexibility, stamina and professionalism of our soldiers.

Following the New Year's Levee at Government House, the unit stood to on 3 Jan 2001. In anticipation of the move to the new Lieutenant-Colonel Philip L. Debney Armoury, stores and equipment were accounted for and packed to prepare for the big move. In May and June 2001, RHQ and 61 Fd Bty moved from Greisbach Barracks in north Edmonton to the new Armoury. This was due to the closing out of the old facilities at Greisbach, which had been home to 20 Field Regiment since 1977. The Armoury is a large, modern building located in the southeast of Edmonton, at 75th Street

A member of 78 Battery prepares to record the gun

and Roper Road. It is home to a number of Reserve units; 20 Field Regiment (RCA), 8th Field Engineer Regiment, 74 Communication Regiment, 745 (Edmonton) Communication Squadron, 15 (Edmonton) Service Battalion, and 41 Canadian Brigade Group Militia Training Detachment. All of which moved from Griesbach Barracks.

The Armoury is named after the late Lieutenant-Colonel Philip Lawrence Debney, a prominent western Canadian engineer, who served in the artillery during the First World War. Following the war he remained in the Militia, eventually commanding the 49th Edmonton Regiment (Militia). During the Second World War Lieutenant-Colonel Debney led a number of engineering units in Canada and Europe. Following the Second World War he commanded the newly formed 8th Field Engineer Regiment and later became the unit's Honorary Colonel.

*MBdr Shannon's gun fires during live fire exercise in Wainwright
Canadian Gunner*

20 Field Regiment was able to fulfill all of its taskings in the area of Ceremonial parades. Of particular note was the Victoria Day Salute on 21 May 2001 at the grounds of the Alberta Legislature. In addition to the salute troop, the Regiment had deployed both static and moving displays, which provided representation from each functional part of the unit. Also on hand was the full complement of the RCA Band. The Lieutenant Governor of Alberta, the Honorable Dr. Lois E. Hole, made a special visit to the guns to present 24 members with their peacekeeper medal. Her Honor was also inducted into the Regiment as an Honorary Gunner, by the presentation of a scroll and the dedication of a military book to the library of Vim Ridge Academy.

Other salutes included the Opening of the Alberta Legislature, Canada Day, Remembrance Day, and firing in support of the Edmonton Symphony Or-

Gunner Harvey prepares to load the next round as part of his QL3 training in Wainwright.

chestra as they played Tchaikovsky's 1812 overture.

Regimental training consisted of a series of live fire exercises at CFB Wainwright, CPX's in Red Deer and Edmonton, a 41 Canadian Brigade Group exercise, Ex Model Challenge, a cloth model exercise. The aim of these exercises was to train and evaluate an artillery battery on its operational effectiveness based on the Field Artillery Battle Task Standards and to confirm skills taught on various Regimental courses. These exercises included:

- 3-4 Feb. -- Ex Raging Garrison-Cloth Model Exercise
- 2-4 Mar. -- Ex Caustic Shock-Live fire in Wainwright
- 16-18 Mar. -- Ex Cougar Salvo-Brigade support in Ft. Lewis, USA
- 23-25 Mar. -- Ex Cannon Strike-Live fire in Wainwright
- 31 Mar. -1 Apr. -- Ex Urban Ram-Fighting in Built up Areas (FIBUA)
- 12-17 Sept. -- SIMNET Ex- Battle Simulator Training in Calgary
- 18-23 Sept. -- SIMNET Ex- Battle Simulator Training in Edmonton
- 28-30 Sept. -- Ex Savage Bear-Live Fire in Wainwright

We found that all of our vehicles, trailers and guns needed to be fitted with new wheel rims, as it was found that there were problems with wheel assembly and rim rust and deterioration from within. There was a delay of approximately six months as a supply of replacements could be found/produced. This was a national problem involving virtually all military units in the Canadian Forces. While this may have caused some delays or hardship for other units, 20 Fd Regt continued on with all taskings and training. To complete exercise obli-

Sgt Allan Moggey is presented with the Canadian Forces Decoration (CD) by Commanding Officer LCol M.G. Mussolum.

gations, trucks were borrowed from other units and guns were transported via flatbed trailer when required.

Stand up of a second mission element, less equipment or funding, has been approved for 20 Field Regiment. This amounts to a field battery establishment of (94) positions being added to the total (TAE) strength of the Regiment. This will help with the ability to recruit and train to a greater extent than in many years past. Full time placement of a recruiting NCM in Red Deer and a part time position in Edmonton has resulted in positive results with the gain of 40 recruits within the past year.

Some members had participated in Tactical Command and Control Communications System (TCCCS) conversion training in order to familiarize and learn the workings of the new radio system. These new radios were installed in all of our vehicles. These classes were intended as a train the trainers format. In turn these members passed on their knowledge and skills to other members in the Regiment.

The Regiment stood down officially on 6 June, but work continued on the move to the new Armouries. Many members were off to summer courses and taskings. Everything from junior officer level training, senior leadership and detachment commanders courses down to the basic gunner and recruit courses. Headquarters and Services Bty continued on during the summer to establish the new offices.

The annual St Barbara's Dinner was held at Cormack Armoury in Red Deer on 1 December. A splendid meal was had by all followed by a dance. BC 78, Major Ed Morris, was on his way the very next day to UN Observer duties in Sierra Leone (Operation Reptile).

Regimental training will continue into the new year at a pace that is challenging and rewarding to all ranks. The year 2002 should prove to be even busier and more demanding not only at home, but also in sending augmentees on Roto 11 and Roto 12 to Op Palladium in Bosnia. As always, Gunners continue to play a vital part in peacekeeping operations around the world. The members of 20 Fd Regt will respond to new

challenges with spirit, dedication and flexibility to ensure their objectives are met.

30th Field Artillery Regiment Royal Canadian Artillery

Ottawa, Ontario- Howitzer, 105 mm, C3, Portee- our guns ride to Parliament Hill by civilian flatbed for a salute. The 21/2-ton gun tractors were unavailable because of a nation-wide restriction on wheel rims.

OTTAWA- "Ever tried to fire a salute when your gun-tractors are grounded and your guns' tyres are not allowed to roll very far?" asked RSM Shawn Nadeau. "Well we got those guns onto Parliament Hill alright, we porteed them!" No stranger to thinking out of the box, RSM Nadeau was a delegate to the Artillery Doctrine and Training Symposium held at the Royal Canadian School of Artillery in Gagetown in February. "We dealt with a lot of issues that will have a direct impact on militia gunners in the next few years."

It's been that kind of a year for the Bytown Gunners. Interesting challenges leading to excellent opportunities for our gunners, NCOs and officers to wave the Gunner flag all over the world. "We carry out good hard training which enables our unit to fill various operational tasks. Our soldiers and officers have been on numerous deployments throughout the world that would have been unheard of 10 years ago," says Major Mark Wilkinson, Deputy Commanding Officer.

BUSY TIMES

"These past two years I've had 10 percent of my Regiment overseas on United Nations peace-keeping duties in Africa or on NATO peace-support operations in Bosnia," explains Commanding Officer, Lieutenant-Colonel Hugh Mundell, "I've sent over 20 Bytown Gunners down to Fort Knox, Kentucky in the USA, fired some 25 salutes on Parliament Hill and other venues and carried out 12 major exercises from two to ten days in length."

"I enjoyed a unique opportunity to combine my civilian

work with my military work when we conducted Exercise Trillium Wolf in Kemptville, Ontario. Working on assistance to the civil authority exercise with the town council, the Ontario Provincial Police detachment and the Kemptville Fire Department allowed us to hone skills in vital-point defence, urban patrolling and liaison tasks. We also got in some good training with our air defence brothers and sisters as 1 AD Regiment, Pembroke came down and covered the same vital points as we did," says BC HQ and Svcs Bty, Major Ian Becking who is a staff officer in the Office of Critical Infrastructure Protection and Emergency Preparedness Canada in civilian life.

"Our regimental school was very busy and we effectively trained 16 gunners, eight signallers, six drivers and five FOO Techs. Those members of the unit not on course were employed as instructional or support staff," reported Regimental Command Post

Kemptonville Ontario- Sgt Bill Hall goes over tent group routine while on Exercise Trillium Wolf in February. Bombardier Kathy Przednowak (farthest right) practised her new driving skills in the cold. She graduated from the artillery driver course in August 2001.

Officer (RCPO) Captain Paul Williams. "We intend to train eight artillery technicians next year."

SOMEWHERE OVERSEAS

"It was a lot of work getting people ready for overseas deployment but it was well worth it," exclaims Chief Clerk, Sgt Mike Diamond. "The orderly room staff are becoming quite accomplished at what was once an infrequent task."

Kars, Ontario- RCPO, "There's my contact lens!" Captain Paul Williams and Adjutant, Captain Dan Wilson rediscover fire on chilly Exercise Trillium Wolf held in the area south of Ottawa in February.

Major Shane Vahey, BC 2 Battery, spent six months in the Congo as a United Nations Military Observer (UNMO). Major Doug Elderkin is en route to the Congo shortly. Operations Officer, Captain Mike Calnan and RCPO Captain Paul Williams shipped up to Petawawa for six months of training with the 3 RCR Battle Group and deployed to Bosnia on Roto 8 as Civil-Military Co-operation officers in Una-Sana Canton. In theatre, Captain Williams was reassigned to Psychological Operations and moved to Battle Group Headquarters at Zgon. Master Bombardier (now Sergeant) Mikk Koshman and Bombardiers Justin Clark, Frank Gardell and Mauricio Lopez spent six months with 2 RCHA in Petawawa before flying over to spend six months in Tomaslavgrad and Glamoc, Bosnia patrolling, carrying out peace-support tasks and gunnery as the fire support element of the battle group. Corporal Adis Perez, formerly a Bombardier on the guns and now one of our RMS clerks, spent six months in Banja Luka as a clerk in the Multi-National Division Headquarters. Each had unique experiences and brought back new operational skills to the Regiment.

Second Lieutenant James Wood also had a unique overseas experience. As part of his schooling in political science, he was accepted for a parliamentary exchange between Ottawa and London. Jamie was to spend four

months as an aide to a British Member of Parliament and his English counterpart came to Canada to fill Jamie's position on the Hill in Ottawa. Through his own initiative and with support from the Regiment he managed to carry out a militia/territorial army exchange as well: he reported for class A duty with 289 Troop (Para) of 266 Parachute Battery, Royal Artillery in London where he paraded and exercised for the time he was in the United Kingdom. He had some very interesting times and has brought home many new ideas on training and recruiting from our Royal Artillery cousins.

Most recently the Ops O and RCPO where sent off to the former Soviet Republic of Georgia to help train Partners for Peace nations in NATO peace-support techniques. While there they bumped into Gunner Laura Svab, who is presently parading with the Irish

(Left) Bihac, Bosnia- CIMIC officer, Capt Mike Calnan arranged for 11 year old Vesmina to attend free boarding school in Velika Kladusa as her mother, Zemka, who is a cook in a lumber camp high in the mountains, couldn't make the arrangements and couldn't afford the costs of getting her daughter to and from school. "The snows are one and a half metres deep in the winter... there was no way Vesmina was going to be able to attend school and live up on the mountain. We had to find another option for her and that was through the Non-Governmental Organisation "Nasa Djeca" (Our Children) who set up the boarding arrangements. Now this bright and energetic girl has a future," says Capt Calnan.

(Right) London, United Kingdom- 2Lt James Wood had the unique opportunity to spend four months with the Royal Artillery in England. He exercised on the Salisbury Plains, at Larkhill and in the wild highlands of Breton Beacon where British Commandos test their mettle.

(Right) Tbilisi, Georgia- Gnr Laura Svab (left) of Ottawa, is parading with the Irish in Timmons, Ontario due to school. She met up with other Bytown Gunners in the former Soviet Republic of Georgia on Exercise Best Cooperative Effort in June 2002, where she got a rare opportunity to ride in a Russian BTR 70 PB armoured personnel carrier. Capt Marie Ryan (right) is the G4 Ops in 33 Canadian Brigade Group Headquarters and an honorary Bytown Gunner after her hard work on our behalf as Quartermaster during Exercise Bold Venture in Kentucky, USA and Exercise Best Cooperative Effort in Georgia, not the USA!

(Right) Glamoc, Bosnia- Bytown Gunners Mick Koshman, Justin Clark, Frank Gardell and Mauricio Lopez enjoying a rare moment of relaxation in the southern part of the Canadian area of responsibility in Bosnia.

while she goes to school in Timmons, Ontario. The Irish had sent her over as part of the exercise command and communications cell.

GO FOR THE GOLD

"The training facilities in Fort Knox are superb," reports MWO Dave Atkins, Assistant Operations Officer. As part of Exercise Bold Venture, Ontario's gunners formed a composite battery and a "0/95" Ops and RCPO complex. Manned by gunners from all across Ontario under command

Fort Knox, Kentucky- "Major Shane Vahey carried out detailed aerial reconnaissance of Fort Knox from the seat of an air reserve Griffon helicopter as part of Exercise Bold Venture in March. Flying over the gold repository was strictly forbidden!

of Major Shane Vahey, the battery fielded six guns. "They managed to get in some good artillery training firing over 420 rounds in three days, the FOO parties went through urban attacks with the infantry through a specially constructed village that has walls that collapse on hydraulics rams, flames that are computer controlled and even a sewer system with artificial sewer stink!"

All ranks also went through the overhead firing range. This involved a nighttime, flare illuminated, 100-metre crawl under barbed wire while charges were set off around the soldiers and three machine guns fired live rounds, including tracer, overhead. Pucker factor was very high! The Regiment hosted a former Bytown Gunner that evening... Brigadier General Andy Leslie, Commander Land Force Central Area, dropped by and took the opportunity to crawl through the overhead firing

Connaught Range, Ontario- "Bull's-eye!" MWO Dave Atkins, Musketry Officer and coach of the Bytown Gunners' prize-winning shooting team, spots for a marksman during the Canadian Forces Small Arms Competition. CFSAC was held at Connaught Range, near Ottawa in July and August. Coach Atkins has worked hard to develop a crack shooting team that competes regularly in provincial and national competitions.

range with his son, Alex, a newly minted Bytown Gunner.

The Americans bent over backwards to make the exercise go smoothly, they even accepted the Canadian reduced impact safety system with a few minor additions to meet their needs. As the American Range Control Officer said, "If I force you to change the way you train it could affect the way you fight and that ain't on!"

Not happy to rest on our laurels as gunners, the Regiment espouses a high level of marksmanship with small arms. Under the able leadership and skilled coaching of our Musketry Officer, MWO Dave Atkins, this years' team competed at the Land Forces Central Area Matches where they took all the Reserve rifle team trophies. At the Canadian Forces Small Arms Competition Capt Phil Low took the tyro sniper match and Master Bombardier Sherman Beaudin won matches 10 and 11. Master Corporal Eric Adams did very well in both rifle and pistol matches reaching stage two for the Queen's Medal, no mean feat considering the tough competition.

POMP AND CIRCUMSTANCE

The Regiment fired many salutes on Parliament Hill, Rideau Hall and various other sites around Ottawa. One of the more interesting salutes comes from the special relationship enjoyed with the Ottawa Police Service, which results in firing the minute gun at the annual Canadian Police Memorial Service on Parliament Hill each year. The close relationship began during civil unrest in the 1860s when the Bytown Gun-

Parliament Hill, Ottawa, Ontario- "FIRE!" Sgt Craig Fisher commands his gun during a salute on Parliament Hill.

ners worked with the Ottawa Police in aid to the civil power duties. It is interesting to note that several members of the Regiment have personal connections to the Ottawa Police as full time constables or family who are.

Certainly the salute that attracts the most attention is the annual "Fortissimo" which is a massing of military bands on Parliament Hill. The show always closes with the War of 1812 Overture punctuated by the roar of our guns.

From the hills of Bosnia to the forests of the Congo, from offices of power in London to the mean streets of Fort Knox's training village, from Tbilisi, Georgia to Gagetown, New Brunswick and from the ranges of Petawawa to the lawns of Parliament Hill, the Bytown Gunners proudly carry "UBIQUE" everywhere! NOT JUST A PRETTY FACE!

62^e Régiment D'artillerie de campagne L'artillerie Royale Canadienne

L'année 2001, fut l'année des ROTO en Bosnie. Nous avons 5 membres du régiment qui ont effectué l'entraînement et qui sont partis sur la ROTO 9 et nous en avons une dizaine d'autres qui se préparent en vue de la ROTO 10. Nos membres sont vraiment motivés et disponibles pour les diverses tâches qui nous sont confiées, que ce soit en support au 5e RALC ou toutes les autres unités qui ont besoin de nos services. Durant l'année 2001, le régiment a été privé de plusieurs membres qui s'étaient trouvés des contrats à l'extérieur du régiment.

De janvier à mai 2001, l'entraînement fut conforme au plan d'entraînement, incluant les tirs d'artillerie et les NIAC. Les éléments de mission du 62e RAC et de la 81e Bie, ont effectué plusieurs fins de semaine de tir. Une succession d'exercices, a su tenir tout notre personnel occupé.

Au printemps 2001, le régiment a participé aux festivités du 100e anniversaire de la ville de Shawinigan, par une parade à laquelle notre musique a participé ainsi qu'un support logistique. La période d'entraînement estivale qui débute en mai pour se terminer à la mi-août comprend divers aspects. Nous avons des candidats sur des cours nationaux, d'autres sur le PEII au CI SQFT ainsi qu'au support d'entraînement des officiers à Gagetown. D'autres gens de notre personnel furent affectés à différentes tâches afin de supporter les écoles de combats et les cadets. Les membres

disponibles pour un emploi ou un cours furent employés.

De retour en septembre, tous étaient prêts à reprendre la vie régimentaire. Tout d'abord, durant la période estivale, nous avons changé de capitaine-adjutant. Le capitaine Mike Jobin succédait au capitaine St-Pierre. Le retour s'est amorcé avec l'exercice Multiplex le 8 septembre 2001 et en octobre, le régiment a participé à l'exercice Liliium Royal avec toutes les unités de la 35e Brigade.

Durant l'année, plusieurs exercices de tirs d'artillerie ont eu lieu dans les secteurs de Valcartier. De plus, un champ de tir C7 s'est tenu, accompagné d'un exercice de navigation de nuit, afin de familiariser le personnel.

En guise de conclusion, si nous reprenons l'année 2001 depuis le début, nous pouvons considérer que le 62e RAC a eu une année très occupée. Nous pouvons être particulièrement satisfaits du rendement de notre personnel. De plus, nous pouvons affirmer que l'année 2001 sera aussi exemplaire. À cet effet, nous avons recruté 20 nouveaux membres durant l'année 2001

1st Air Defence Regiment Royal Canadian Artillery

An extremely busy year has come and gone. That being said, it was also a year of intense travels, tumultuous change, hard work, and yet, extreme satisfaction in recognition of accomplishment for all ranks of 1st AD Regiment. We said farewell to Major D.G. MacPherson, our outgoing Commanding Officer who went on to sunnier climes in Fort Bliss and welcomed Major G.J. Hardwick into this important role. Our thoughts and best wishes went out to the 31 Unit personnel who deployed with Op PALLADIUM ROTO 8 in the early spring. Whilst "in-theatre" the majority of these personnel formed the Transport Platoon for the 3 RCR Battle Group. As expected, they all returned safely in the fall after a highly successful tour. Throughout this time, our Rear Party organization never missed a beat. Under strength, yet steadfast in their determination, they shouldered the load, through a myriad of activities back at the Regiment and points abroad, serving as Unit Ambassadors and executing our role as 2 Brigade's Air Defenders.

In addition to our Bosnia mission, members of the Regiment traveled else where on the planet, from Cold Lake to Fort Bliss, from England to Holland and Belgium, and yes, throughout the Ottawa Valley!!! We certainly reinforced our Moto...UBIQUE.

Like all units, we sadly bid farewell not only to our Commanding Officer, but also to some other fine individuals. However, the "silver lining" was there in that we welcomed some dynamic and highly respected members of the Royal Regiment in to fill these shoes. CWO T. Bradour, our RSM, retired this year and was replaced by CWO R. Howell. These gentlemen, well known throughout the Royal Regiment, executed their change of RSM ceremony in fine fashion. Sergeants Popovitch and Young departed to Gagetown where they are undoubtedly enjoying highly successful postings. Other departures included: Capt Pat Bryden: Lake Superior Scottish Regiment (Thunder Bay) Capt Nigel Grout: IG Crse MCpl Gerald Caron: retirement MBdr L. Smith: Gagetown

Taking post here at the Regiment in 2001 were: MWO R.B. Bissonnette: BSM 89 Bty, now Captain Bissonnette, BK 89 Battery. MBdr T. Drake MBdr P.

Hopper Bdr Paquette Gnr Charlong, currently on a six-month tour of CFS Alert.

In addition to those personnel already mentioned, we take this time to recognize the large number of Reserve Component soldiers who, as citizens of the local area, persevered through their training and earned their Gunner Hat Badges. Retention of personnel, to our advantage, showed marked improvement last year. Resultantly, we have come into the New Year with a greater volume of personnel. Responsibility for this dynamic is credited, in no small measure, to our superb instructional cadre here at the Regiment. Indeed, many of our young reserve soldiers, after spending some time enjoying the challenges of Regimental duty, decide to execute a Component Transfer to the Regular Force. Some go on to different trades, thus contributing to the Canadian Forces in general, while several, we are happy to report, stay on here at the unit as Regular Force Gunners. Of course, we see this trend continuing into the future.

A fitting end to 2001 was the traditional Soldiers' Christmas Dinner held at the Pembroke Armoury, our Regimental home. A family atmosphere could be felt as everyone thoroughly enjoyed themselves. This year's dinner was particularly special in that we were able to sit down, once again as a complete Regimental Family, indeed thankful to have our Bosnia veterans at our sides, safely home from their successful tour.

Let there be no doubt that the gunners of the 1st AD Regiment continue to be as busy as ever in 2002. However, we go into the unknown both strong and unified.

UBIQUE

18th Air Defence Regiment Royal Canadian Artillery

2001 was another year of great activity for the soldiers of 18th Air Defence (AD) Regiment, RCA. The regiment continued to take part in peacekeeping missions throughout the world with both Regular and Primary Reserve soldiers deployed on peacekeeping duties in Bosnia and Eritrea/Ethiopia. The pace of activity did not slow down for those remaining behind in Canada.

The unit conducted a change of command parade in March when Major JPF Lepine assumed command from LCol WF Scheurkogel who retired from the Canadian Forces. Recruiting and retention of the unit's Primary Reserve (PRes) soldiers was highly successful resulting in an increase in the unit's numbers with the current strength of the unit at 34/37 Regular soldiers and 81 Primary Reserve soldiers. Recruiting and retention will remain a high priority for calendar year 2002.

There were many important events that took place throughout the year. However the most significant events included a Small Unit Exchange (SUE) with the 4th Battalion of the 5th Regiment Air Defence Artillery (US) from Fort Hood Texas, a professional development and battlefield tour of Quebec City, Ottawa and Kingston, a SUE with a Belgium Air Defence unit in Oct and a live Javelin missile firing camp with air defenders from four different units from across Canada in November.

TRAINING AND COURSES

Courses

The unit conducted the following courses:

16 May - 9 Jun, 11 personnel completed the Qualification Level 2 course in Calgary; 8 - 18 May, 16 personnel completed the Armoured Vehicle General Purpose driver training; 11 Jun - 26 Jun, 8 students completed driver wheel course; 24 Jul - 27 Aug, 21 students completed QL 3 training; 2 - 23 Jul, 11 students completed the QL 2 course in CFB Shilo; and 22 Sep - 10 Dec, 6 students completed the Javelin Detachment Commander course.

Exercises

The unit conducted the following exercises:

EX STRONG CONTENDER - 21-29 Jan - 1 CMBG

Rededication of the Vimy Ridge Armoury with refurbished 40mm Boffin and monument.

week long sports competition held in CFB EDMONTON. 18 personnel from the unit competed and the units' floor hockey team finished third;

EX LION EXCHANGE - 1 - 19 Feb This was a winter warfare ex held in Sundrie AB which combined personnel from 18th AD Regt, 4/5th ADA (US) Fort Hood Texas and 58 AD Bty from Valcartier Que;

EX MODEL CHALLENGE - This was a 41 CBG cloth model exercise held in Calgary 24-25 Feb;

EX URBAN ARROW - 26-31 Mar. This was a helo operation and a recruiting exercise that took place in Southern AB. Air Defence detachments were transported via helicopter to local schools where the detachments were deployed for approximately 30 mins and then re-deployed via helo to another school. This was an excellent exercise and increased the profile of the unit;

EX COALITION RAM - a two week JANUS computer assisted exercise conducted in Edmonton by 1 CMBG from 13 to 23 Mar;

EX STEEL THRUST - 23-25 Aug. This was the final exercise for the QL3 course and took place in the city of Lethbridge and surrounding areas;

EX VIRTUAL RAM - 15 soldiers took part in a JANUS computer assisted exercise with 1 CMBG at CFB Edmonton;

Conducting pre-fire checks during Ex BLAZING ARCHER.

EX WINGED GUNNER - This was a five-day professional development and Small Unit Exchange visit to 14th Regiment Luchtdoelartillerie in Belgium held in Oct. A total of 20 soldiers took part in this exchange;

EX BASS ROCK - Two soldiers took part in this air defence exercise in the United Kingdom; and

EX BLAZING ARCHER- 28 Nov - 3 Dec - This was the units' annual Javelin missile live firing camp held at CFB Suffield. Four other air defence units from across Canada also participated and a total of 37 missiles along with .50 caliber and 7.62 mm ammunition were fired.

HIGHLIGHTS AND SNAPSHOTS

2000 was another active year for the Regiment. With exercises with 1 Canadian Mechanized Brigade Group (1 CMBG), 41 Canadian Brigade Group (41 CBG), exercises and events in the city, the soldiers of the Regiment were kept very busy. The unit conducted various exercises on our own, solidifying the Regular Force and Reserve soldiers of our Regiment into a cohesive entity. Training was conducted from detachment level to battery level, developing the skills, leadership and confidence required to provide effective air defence protection.

In 2001, the unit continued to maintain its' ability to send highly qualified and well trained soldiers on peacekeeping duties with a total of two deployed to Bosnian as part of OP PALLDIUM and one to Eritrea/Ethiopia as part of OP ECLIPSE . The unit also has 20 soldiers ready for immediate deployment as part of the Immediate Reaction Force Light (IRFL) which is involved with OP APPOLO in Afghanistan.

SPORTS

During the past year, 18th AD Regt has been very busy when it comes to PT and sports. Maple Herrit assumed the position of Sports O and has leapt into the position with enthusiasm and dedication. The Regiment strove to continue to improve the PT. The unit acquired additional sports and recreational equipment to better service the needs of the soldiers.

The sports year commenced with the annual 1 CMBG sports competition, EX STRONG CONTENDER. 18th AD Regt was well represented by it's floor hockey team and came home with a third place medal. In December the annual St. Barbara's Day sports competition was held with floor hockey, darts, pool and volleyball as the main sports.

A Javelin Det observes it's arcs during Ex BLAZING ARCHER

Two soldiers from the unit prepare to fire under NBCD conditions during Ex BLAZING ARCHER.

HISTORICAL AND COMMUNITY ACTIVITIES

18th Air Defence Regiment strongly believes in community support, education & participation and is the driving force behind many events in the immediate community and surrounding areas. 2001 was no exception. Highlights included; Change of Command Ceremony 11 Mar; Ex URBAN ARROW 23-26 Mar; Unit OPEN HOUSE 6-8 Apr; Reserve Days Calgary - 4-6 Jun; Calgary Stampede - 8-18 Jul; Lethbridge Air Show - 12-16 Aug; Dedication of the Vimy Ridge Armoury - 9 Nov; Remembrance Day Parade - 11 Nov; St Barbara's Sports Day - 4 Dec; Soldier's Christmas Dinner - 8 Dec; and the Unit Christmas Dance 10 Dec 99. The hard work, dedication, duty and loyalty to the community displayed by all members of the unit has resulted in excellent public relations within the City of Lethbridge and the rural communities of Southern Alberta.

The past twelve months have been an eventful, morale-building time for all members of the Regiment. The year 2002 promises to be even busier. With the recent introduction of the new computerized Tactical Command Control Communication System, the unit will now have a state of the art communication system which

will no doubt place heavy demands on the staff to get all soldiers qualified on this equipment. Through tremendous teamwork and dedication, 18th Air Defence Regiment continues to prove itself as a tenacious and ambitious Total Force unit. The unit looks forward to new challenges and approaches them with fresh perspective, professionalism, and confidence.

116th Independent Field Battery Royal Canadian Artillery

The culmination of gunnery, infantry patrolling, city courses, ELOC, winter indoctrination and a change of command made for a busy year at 116 Independent Field Battery (RCA).

116 Independent Field Battery faced many challenges during 2001, none of which were insurmountable for the unit. The year started off with the MLVW fleet being grounded for new wheels. Coupled with this, was the recoil problems on the C3 Howitzers. With this in mind, the Commanding Officer implemented a wide variety of infantry training within the local area. The unit had not done infantry training for several years, and this was an excellent opportunity for all NCM's and junior officers to hone their patrolling skills. The focus was on urban patrolling in complex terrain. The unit conducted the patrols in the downtown area of Kenora. The patrols were conducted early in the morning while the town was asleep. We didn't want the town to think they were under attack or were threatened in anyway. The experience was beneficial to all members in that the training was at the section level. "Hennypen Lane" was the street utilized for this training. It provided an excellent venue to practice all aspects of urban patrolling.

The unit not only focused on urban patrolling. A lot of interesting and challenging training was also conducted in and around the Kenora area. ELOC training and City courses were conducted as well. 116 Bty sent four members, along with an instructor to Brandon MB for a Driver Wheel course which ran from January to May. Winter Indoctrination within the Battery proved to be educational to the majority of the junior NCM's. Coupled with this, a small foreign exchange with the American National Guard from the northern U.S.A. proved to be a great experience. The Americans came to the Kenora area for winter indoctri-

Pte Angus during urban patrolling.

nation where they were exposed to winter survival, ice fishing and living in improvised shelters. It was a great success and hopefully this will happen again in the near future.

Since the unit had no MLVW's or C3 Howitzers to conduct realistic Artillery training, the unit is very fortunate to have a Phoenix Artillery Simulator. The unit made effective use of the simulator, in that every member of the unit was able to call down basic fire missions. Also, the section

commanders made effective use of the Small Arms Trainer at the unit. It gave them an opportunity to hone their section orders to their sections.

As always, 116 Independent Field Battery is preparing for another busy training year. With ongoing national and international operations, our soldiers are preparing to serve in domestic and world wide operations.

Maj Fraser debriefs the section of the patrol.

58^E Batterie D'artillerie Antiaérienne Artillerie Royale Canadienne

DE NOUVEAUX LOCAUX POUR LA 58BAAA

Hé oui !
Finalement, après plus de 8 années d'attente le projet de rénovation de la bâtisse 274 pour la 58e BAAA est dans sa phase finale. Suite à l'acceptation des plans, devis et des soumissions à la fin novembre 2000, les travaux ont pu enfin débuter le 11 décembre 2000. Plus les travaux avançaient, plus les membres de l'unité étaient impatients d'occuper leurs nouveaux locaux. Après plus de 6 mois de dur labeur, les clefs nous furent remises à la fin juin 2001. L'adj Desrochers a été un des chaînons principaux lors de la réalisation du projet. Il a du partager son temps entre son emploi et celui du projet. Son implication est digne de mention. De juin à septembre, l'unité prenait possession de ses nouvelles installations. Après un investissement de 2.3 millions de dollars, nous sommes en mesure de dire que la bâtisse 274 rencontre les besoins de l'unité.

EX RESOLUTE GUARD

Alors que la troupe de support travaillait sur notre nouvelle infrastructure, la troupe de combat participait à l'exercice RESOLUTE GUARD du 2 au 19 fév 2001 en partenariat avec le 18 Regt de Défense Antiaérienne et d'une troupe de Stigner américains provenant de Fort Hood Texas. L'exercice s'est bien déroulé malgré la température sans cesse changeante. L'expérience a été très enrichissante. La troupe a très bien représenté l'unité grâce à son professionnalisme et aussi de sa polyvalence que tous ont pu remarquer. Que les autres se le tiennent pour dit 'la 58èmeBAAA est ici pour régner'. Nous sommes ici pour faire le travail ce jusqu'à la fin!

SOMMET DES AMÉRIQUES

Du 17 au 23 avril 2001 se tenait Le Sommet des Amériques qui réunissait un très grand nombre de personnalités très importantes de différentes nationalités. Grandement médiatisé, l'unité fût demandée à participer aux impressionnantes mesures de sécurité qui ont entouré

cet événement. Nous avons dû fournir quatre détachements qui furent déployés dans des endroits stratégiques de la région immédiate de Québec pour assister la tour de contrôle de

Québec. Encore une fois, la troupe de combat a remarquablement performé recevant ainsi des félicitations sur la façon dont celle-ci a fait son travail et ce, dans la plus grande discrétion.

CHANGEMENT DE COMMANDEMENT

Il ne faut pas passer sous silence le changement de commandant qui a eu lieu le 19 mai 2001. Une multi-

tude d'invités y étaient présents. Présidé par le Col Grondin Commandant du 35 GBC, la cérémonie a été un franc succès. Sous l'œil attentif des 60 membres présents sur la parade, le Major Pierre Bruneau passa le commandement de l'unité au Major Beauchemin. Cette passation de commandement a été suivie d'une petite réception. Nul doute, qu'avec un nouveau commandant, la vie à la 58 BAA sera à nouveau rempli de défis et d'expérience de toutes sortes.

Bien entendu, la période estivale est toujours une période fort occupé à l'unité. Presque tous le pers se sont retrouvé sur le PEII ou à Gagetown du mois de juin à août. Vint ensuite l'exercice de bde Liliium Royal 2001 durant la fin de sem de l'action de grâce où la troupe de cbt a été grandement impliquée. Comme toujours, l'unité s'est fait remarquer par son engagement vis à vis la mission.

OP PALLADIUM

Il ne faut pas passer sous silence la grande participation de l'unité aux efforts de la Rotation 9 de l'Opération Palladium. Un total de 9 personnes de l'unité a participé soit 3 réservistes et 6 réguliers. Bien que ce nombre semble minime, cela a causé tout un casse tête organisationnel. En effet les deux seuls officiers réservistes ont été dépl laissant ainsi le cmdt et le cmdt adjoint bien seul. Par surcroît, l'unité a du également fournir un total de 9 pers sur la roto 10. 'Nous sommes en pause opérationnelles disait le Maj Beauchemin aux troupes'

Finalement, l'année 2001 s'est terminée avec un cours de chauffeur roue et le dîner de la troupe. Nul doute que l'année 2001 fut extrêmement chargé. Dans les faits, ce fut une année tout à fait normal pour les membres de la

58e BAAA. La devise des artilleurs UBIQUE s'applique à la perfection à l'unité.

RCA Photo Contest

Best Photo related to Field or Air Defence
Cash Prizes of \$650.00
Open to all ranks of the CF –regular / militia / retired
(excluding professional or semi professional photographers)
Submit B & W or colour prints or JPEG photos (min 300 dpi) to:

RCA Photo Contest
RHQ RCA
PO Box 5000 Stn Main
Shilo, MB R0K 2A0

or e-mail to webmaster@artillery.net
Deadline for entries is 28 Feb 2003

Minimum size of prints is 3 x 5 inches

All submissions become the property of RHQ RCA and will not be returned.
Please include a short note explaining information about the photo and the photographer

A committee will conduct judging. Units are requested to promulgate the information in RO's

Winning photos will be published in The Quadrant. All submitted photos will included the photo album on www.artillery.net

Concours de Photo d'ARC

La meilleure photo d'artillerie de campagne ou de défense anti-aérienne. Prix en argent de 650,00 \$ Pour tous les grades des forces régulières/de milices /ou retraités (à l'exception des photographes professionnels ou semi-professionnels). Vous pouvez soumettre des photos en noir et blanc, en couleur ou en format de JPEG (min 300 dpi) à:

RCA Photo Contest
RHQ RCA
PO Box 5000 Stn Main
Shilo, MB R0K 2A0

ou par courriel à webmaster@artillery.net
La date limite de participation est le 28 fév. 2003.

La taille minimum des photos est de 3 x 5.

Toutes les photos deviendront la propriété de RHQ RCA et ne seront pas retournées.
Veuillez joindre une courte explication à propos de la photo et de son photographe.

Un comité jugera chacune des photographies.

Les unités sont priées de diffuser l'information dans les Ordres Courants. Les photos gagnantes seront dans « Le Quadrant ». Toutes les photos seront disponible dans l'album photos sur le site www.artillery.net

*The
Colonel Geoffrey Brooks
Memorial
Essay Competition*

*Compétition
pour L'essai en
Mémoire du
Colonel Geoffrey Brooks*

ELIGIBILITY

All Ranks of The Royal Regiment of Canadian Artillery

TOPIC

Write on any topic of general or specific military interest with current applicability to The Royal Regiment of Canadian Artillery. Purely historical narratives are not usually suitable as the purpose of the competition is to encourage discussion of current issues. Therefore, any historical essay must point out "lessons learned" which could apply today or in the future.

RULES

Essay entries should be between 2,000 to 3,000 words in length. They must be typewritten and submitted in quadruplicate. The title and page of any published or unpublished work to which reference has been made, or from which extracts have been taken, must be quoted.

Authorship of entries must be strictly anonymous. Each competitor will adopt a motto or nom de plume, which will be quoted at the top of the entry.

A sealed envelope will be enclosed with the entry. This envelope will contain the service number, rank, name and address of the competitor. The envelope will have the appropriate motto or nom de plume only, typewritten on the outside.

ENTRIES ARE TO BE ADDRESSED TO:

Editor, The Canadian Gunner
The Colonel Geoffrey Brooks Memorial Essay Competition
RHQ RCA
PO Box 5000 Stn Main
Shilo, MB R0K 2A0

Entries must reach RHQ RCA BY 28 Feb 2003.

\$1000⁰⁰ in cash prizes

JUDGING

The Editor will arrange for a committee to judge the entries. The decisions of this committee will be final. Results will be made known in the next issue of The Canadian Gunner and on www.artillery.net

The Editor and staff of The Canadian Gunner can not be held responsible for the loss or return of any essay submitted; nor shall they incur any liability whatsoever in connection with the receipt, dealings, judging and reports of essays.

The copyright of any essay published in The Canadian Gunner will belong to The Regimental Fund

Tous les grades du Régiment royal de l'artillerie canadienne peuvent y participer.

Tous les sujets (précis ou généraux), qui font références au Régiment royal de l'artillerie canadienne, sont acceptés pour le concours. Les récits historiques ne sont habituellement pas admis puisque le but du concours est d'encourager les discussions sur des sujets actuels. Par conséquent, les compositions à caractère historique doivent faire part d'une leçon antérieure applicable à une situation actuel ou à venir.

RÈGLEMENTS

Les compositions doivent comprendre entre 2000 et 3000 mots. Elles doivent être présentées sous un format informatique et en 4 exemplaires. Le titre et la page de tous les extraits cités ou tous autres ouvrages de références utilisés doivent être annotés.

Le nom de l'expéditeur du texte doit rester secret par conséquent, chaque concurrent adoptera une devise ou un nom de plume, qui seront indiqué sur la page de présentation.

Vous devrez joindre une enveloppe scellée contenant à l'intérieur les renseignements suivants : le numéro de service, le rang, le nom et l'adresse de du concurrent. Sur cette enveloppe, vous devrez seulement inscrire votre nom de plume.

LES TEXTES DOIVENT ÊTRE ADRESSÉES À:

Editor, The Canadian Gunner
The Colonel Geoffrey Brooks Memorial Essay Competition
RHQ RCA
PO Box 5000 Stn Main
Shilo, MB R0K 2A0

Les textes doivent parvenir au RHQ RCA avant le 28 fév. 2003.

1000,00 \$ de prix en argent comptant

JUGER

L'Éditeur se chargera de nommer un comité pour évaluer la valeur des textes reçus. Les décisions de ce comité seront finales. Les résultats seront publiés dans la prochaine parution de l'Artilleur canadien et sur le site www.artillery.net

L'éditeur et le personnel de L'Artilleur canadien ne peuvent pas être jugés responsables de la perte d'un text. Ils ne seront aucunement liés à la réception et à l'évaluation des textes.

Les droits d'auteur de tous les textes publiés dans l'Artilleur Canadien appartiendront aux fonds régimentaires.
